

November 3, 2022 - Regular School Board Meeting

Title

C12 - Florida Department of Education, Office of Student Financial Aid Data Sharing Agreement

Description

This agreement will be a combined effort with Clay County district Schools, Florida Department of Education and Clay county families. The agreement enables high school counselors to track which students have completed the Free Application for Federal Student Aid (FAFSA). This allows high school counselors to increase access and awareness of available funding to post-secondary options for our students. In a collaborative effort with our families we will be able to assist in preparing our students for their next steps.

Gap Analysis

Previous Outcomes

Previously, students and their families have had difficulty completing their FAFSA form.

Expected Outcomes

The expected outcome is to increase the number of students who qualify for financial aid and post-secondary options.

Strategic Plan Goal

Strategy 1.3 Prepare all students to be full option graduates who are prepared for college, eligible to enlist in military services, or able to compete in the workforce.

Recommendation

That the Clay County School Board approves the data sharing agreement,
