*The ESY calendar is a general framework for services; The IEP team makes the decision regarding ESY services necessary for the provision of FAPE.

Student Registration

Extended school year services are available to provide a Free Appropriate Public Education (FAPE) for students with disabilities and must be considered by the IEP team as part of the provision of a free appropriate public education. The IEP team determines the need for ESY services and location of those services. It is important that IEP teams consider a variety of criteria or factors when determining whether ESY services are necessary in order to ensure the provision of FAPE. The necessity for ESY services and/or the duration of those services cannot be limited based on the type or the degree of disability. ESY services must be addressed at least annually for each student with a disability. ESY is NOT any of the following: summer school, child care, respite care, intended to maximize educational opportunity or potential growth, a longer school day, one-size-fits-all, or provided based on specific areas of disability, level of service, or type of classroom placement.

Criteria that the IEP team can use to determine whether a student requires ESY services may include but not be limited to:

- **Regression/Recoupment** - Will the student regress substantially in a critical life skill related to his or her IEP goals if ESY services are not provided?
- **Critical Point of Instruction** - Is the student at a crucial stage in mastering a critical life skill, when a lapse in services would substantially harm the child's chances of learning that skill?
- **Nature/Severity of Disability** - Is the nature or severity of the student's disability such that the student will not receive a reasonable level of benefit from his or her educational program during the regular school year if ESY services are not provided?
- **Special Circumstances** (e.g., transition from school to work) - Are there extenuating circumstances that make it unlikely that the student will receive FAPE without ESY services?

If a student is determined to need ESY, the IEP team must also consider the type of services needed. Some options for services may include direct instruction; take-home instructional materials; itinerant teacher services, tutorials; services contracted through community or outside agencies; consultation.

Notification

The IEP team, including the parent, determines the need for extended school year services. Once it is determined that a student requires extended school year services, the details of the program will be provided to the parent via the ESE teacher. ESE teachers will refer to the ESY Task Instructions to provide notification and register students for ESY Services. The ESY Task Instructions and ESY Calendar and Framework for services can be located in the ESY Forms section of this manual.

Registration

Registration will be completed in collaboration with IEP teams at school sites.

Location

Students who require services through ESY programs will be served virtually based on their needs. Please refer to the ESY Virtual summer calendar for a general framework of services.

Student Policies

Attendance

Students are encouraged to attend each day of the program.

Student Code of Conduct

The “Student Code of Conduct” policies are to be followed during all summer school offerings.

Student Records

Initiating Summer School Records

The ESY teacher will be notified of student needs based on each student’s IEP.

Closing Out Summer School Records

The ESE Teacher will update the student’s goals and objectives on the IEP, and complete the Summary of Progress document, which can be found in the ESY Task Instructions.
