Any Board employee who has purchasing authority shall consider first the interests of the Board in all purchases and seek to obtain the maximum value for each dollar expended; not solicit or accept any gifts or gratuities from present or potential vendors which might influence or appear to influence purchasing decisions; and refrain from any private business or professional activity that might present a conflict of interest in making purchasing decisions on behalf of the Board.

This policy shall generally apply to the District's purchase of commodities and contractual services, except it shall not apply to:

In order to promote objective contractor performance and eliminate unfair competitive advantage, the District shall exclude any contractor that has developed or drafted specifications, requirements, statements of work, or invitations for bids or requests for proposals from competition for such procurements.

The District shall not use statutorily or administratively imposed State, local, or tribal geographical preferences in the evaluation of bids or proposals, except when an applicable Federal statute expressly mandates or encourages a geographic preference; or the District is contracting for architectural and engineering services, in which case geographic location may be a selection criterion provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract. In the instance where state law requires local preferences, the District shall follow state law.

If the District uses a pre-qualified list of persons, firms, or products to acquire goods and services that are subject to this policy, the pre-qualified list shall include enough qualified sources as to ensure maximum open and free competition. The District shall allow vendors to apply for consideration to be placed on the list annually.

All terms of 2 C.F.R. 200.318 shall be followed.

Procurement Methods

In order for sealed bidding to be feasible, the following conditions shall be present:

1. A complete, adequate, and realistic specification or purchase description is available;
2. Two (2) or more responsible bidders are willing and able to compete effectively for the business; and
3. The procurement lends itself to a firm fixed price contract and the selection of the successful bidder can be made principally on the basis of price.

When sealed bids are used, the following requirements apply:

1. Bids shall be solicited in accordance with the provisions of State law and District. Bids shall be solicited from an adequate number of qualified suppliers, providing sufficient response time prior to the date set for the opening of bids. The invitation to bid shall be publicly advertised.
2. The invitation for bids will include product/contract specifications and pertinent attachments and shall define the items and/or services required in order for the bidder to properly respond.
3. All bids will be opened at the time and place prescribed in the invitation for bids; bids will be opened publicly.
4. A firm fixed price contract award will be made in writing to the lowest responsible bidder. Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs shall be considered in determining which bid is lowest. Payment discounts may only be used to determine the low bid when prior experience indicates that such discounts are usually taken.
5. The Board reserves the right to reject any or all bids for sound documented reason.

D. Competitive Proposals

Procurement by competitive proposal is normally conducted with more than one source submitting an offer and is generally used when conditions are not appropriate for the use of sealed bids.

If this method is used, the following requirements apply:

1. Requests for proposals shall be publicized and identify all evaluation factors and their relative importance. Any response to the publicized requests for proposals shall be considered to the maximum extent practical.

The District may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms are a potential source to perform the proposed effort.

E. Noncompetitive Proposals

Procurement by noncompetitive proposals allows for solicitation of a proposal from only one source and may be used only when one or more of the following circumstances apply:

1. The item is available only from a single source
2. The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation
3. The Federal awarding agency or pass-through entity expressly authorizes noncompetitive proposals in response to a written request from the District
4. After solicitation of a number of sources, competition is determined to be inadequate.

Small and Minority Businesses, Women's Businesses and Labor Surplus area Firms

The District shall take affirmative steps to assure that small and minority businesses, women's business enterprises, and labor surplus area firms are used when possible in accordance with 2 C.F.R. 200.321.

Contract/Price Analysis

In compliance with 2 CFR 200.323, the District shall perform a cost or price analysis in connection with every procurement action in excess of the Simplified Acquisition Threshold, including contract modifications. Cost analysis is defined as evaluating the separate cost elements that make up the total price; price analysis is defined as evaluating the total price, without looking at the individual cost elements.

The method and degree of analysis is dependent on the facts surrounding the particular procurement situation; however, the District shall come to an independent estimate prior to receiving bids or proposals.

The District shall negotiate profit as a separate element of the price. To establish a fair and reasonable profit, consideration is given to the complexity of the work to be performed, the risk borne by the contractor, the contractor's investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work.

Awarding Agency Review

Pursuant to 2 CFR 200.324, the District shall make available, upon request of the awarding agency or pass through agency, technical specifications on proposed procurements where the awarding or pass through agency believes such review is needed.

Bonding Requirements

For construction or facility improvement contracts or subcontracts exceeding the Simplified Acquisition Threshold, in the event that the awarding agency or pass through agency has not accepted the Districts bonding policies, the District shall ensure that the minimum requirements of 2 CFR 200.325 are followed regarding bid guarantees, performance bonds and payment bonds.

Maintenance of Procurement Records

The District shall maintain records sufficient to detail the history of all procurements, including records which reflect rationale for the method of procurement, selection of contract type, contractor selection, or rejection, and the basis for the contract price.
