## Interim Programmer/Analyst

### Job Description:

Supports the information needs of the school district by providing computer programs that meet the needs of the system users and fulfill other system requirements. Maintains and enhances existing application systems of the district. Performs programming functions. Designs computer systems as prescribed by administration and under the local direction of the Director of information Services and the Supervisor of Data Processing.

### Responsibilities and duties of this position include:

1. Utilizes district programming standards to code, test and implement application programs.
2. Performs modifications and enhancements to current systems as directed.
3. Investigates potential program errors and makes necessary corrections.
4. Designs computer based information systems following prescribed specifications.
5. Creates and maintains detailed programming and procedural documentation.
6. Coordinates with users to validate any new or modified programs.
7. Maintains work environment and utilizes resources effectively to meet development deadlines.
8. Performs other duties of a similar nature or level.
