**2021-2022 ACADEMIC YEAR MEMORANDUM OF UNDERSTANDING
THE SCHOOL BOARD OF CLAY COUNTY AND
THE UNIVERSITY OF NORTH FLORIDA BOARD OF TRUSTEES**

As part of a collaborative effort to simultaneously improve PreK-12 education and teacher preparation, The University of North Florida Board of Trustees, a public body corporate ("University of North Florida" or "University"), and the School Board of Clay County, Florida ("District,) agree to cooperatively participate in providing two Resident Clinical Faculty to the Professional Development Schools Network during the 2021- 2022 academic year. The program will provide the District with an opportunity to implement new organizational structures and ways of teaching and learning which will enhance student learning and link professional development with Pre K-12 student learning.

At the same time, this program provides an opportunity for the University of North Florida College of Education and Human Services to enhance the clinical experiences (internship and field components) of its teacher preparation program by forging stronger linkages with the District and by providing opportunities for teams of university students to work with teachers who are implementing effective and innovative teaching strategies.

Based on the 9 Essentials for Professional Development Schools as outlined by the National Association for Professional Development Schools, participation by the District and the University of North Florida will involve the following:

College of Education and Human Services personnel and officials designated by the District will collaboratively identify two experienced, exemplary District teachers to serve as Resident Clinical Faculty of the University for the 2021-2022 academic year.

During the 2021-2022 academic year, each selected Resident Clinical Faculty will hold the University title of Clinical Instructor, participate in a wide variety of innovative and reflective professional growth activities and action research, receive training in the areas of clinical supervision, coaching and various instructional strategies that are integrated into the University clinical experiences component, the District professional development component, and appropriate school improvement components of the district. The Resident Clinical Faculty will work to create and uphold a comprehensive mission for the Professional Development School that is broader in its outreach and scope than the mission of any partner and that furthers the education profession and its responsibility to advance equity within schools and, by potential extension, the broader community.

During the academic year, the Resident Clinical Faculty will assist teachers at the Professional Development Schools in implementing agreed upon instructional changes, assist with implementing school improvement plans and work with individual students and beginning teachers. During the fall and spring semesters, each Resident Clinical Faculty member will also supervise a cohort of interns and other university students assigned to the Professional Development School. The Resident Clinical Faculty will help facilitate a school-university culture committed to the preparation of future educators that embraces their active engagement in the school community. The Resident Clinical Faculty will assist in the engagement in and public sharing of the results of deliberate investigations of practice by Professional Development School teachers as well as University teacher candidates.

Each Resident Clinical Faculty will remain a school district employee and not be an employee of the University. However, each Resident Clinical Faculty will adhere to all applicable University policies and

rules. The University agrees to reimburse the District for one-half of the average teacher salary and benefits for each of the two Resident Clinical Faculty during the 2021-2022 contract year. It is understood that the Resident Clinical Faculty will work the same number of days as specified in their regular contract, but they may require a modified schedule due to differences in the University and district calendars. The modified schedule must be acceptable to both the University and District personnel office.

The program will be evaluated by the University and District staff to determine the impact on the University students, the College of Education and Human Services teacher preparation program, the Resident Clinical Faculty, students and teachers at the Professional Development Schools, and the District. Results will be disseminated to the District and to all members of the project.

This Agreement is subject to Florida's Public Records Laws, Chapter 119, Florida Statutes. University and District understand the broad nature of these laws and, as to matters covered by this Agreement, agree to comply with Florida's public records laws and laws relating to records retention. In compliance with section 119.0701, Florida Statutes, University and District agree to:

Keep and maintain public records required by the District or the University in order to meet its obligations hereunder.

Upon request from the District's or University's custodian of public records, provide the other with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in the Chapter 119, Florida Statutes or as otherwise provided by law.

Ensure that public records that are exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the Agreement term and following completion of the Agreement to the extent District or University does not transfer the records to the other.

Upon completion of the Agreement, transfer, at no cost, to the other all public records in its possession or keep and maintain public records required by the other to meet its obligations hereunder. If it keeps and maintains public records upon completion of the Agreement, it shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the other, upon request of the other's custodian of public records, in a format that is compatible with the information technology systems of the other.

IF UNIVERSITY OR DISTRICT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE UNIVERSITY'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THE AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT THE ADDRESS AND PHONE NUMBER BELOW.
