## **II. JOB DESCRIPTION ACTIONS**

### **A. Approve the following Administrative Job Description:**

#### **NEW:**

##### **O-1.1.71**

##### **Building Automation System Coordinator (BAS)**

The District has thirty five (35) schools with computerized Building Automation Systems (BAS) as part of their infrastructure to control heating, ventilation and air conditioning (HVAC), security cameras, lighting and bell schedules. The level of technology and complexity that encompasses BAS warrants the need for a coordinator position within the Maintenance Department. This position is very essential to the maintenance, and operation, of the systems currently in place, as well as the planning, design and implementation of future BAS projects. The energy management system is the primary component of the BAS and is integral to the day to day operation of facilities within the District, and the BAS Coordinator will provide that critical support link between the District, School Administrators and Maintenance.

Job Locator: O-1.1.71  
Building Automation System Coordinator (BAS)  
Position Grade: Coordinator IV  
Evaluated by: Director of Maintenance  
or Assigned Administrator

**Job Description:**

Technical and administrative work developing and implementing HVAC and energy conservation projects, video security systems and overseeing and making recommendations regarding the design, installation and modification of district-wide Building Automation Systems (BAS). This is an entry level, stand-alone class.

**Essential Functions (not intended to be all inclusive)**

1. Manages BAS projects and warranties, including coordinating with engineers and contractors and performing job inspections.
2. Responds to reports from principals and coordinates corrective action with appropriate parties.
3. Provides technical guidance, assistance, and training to District staff regarding installation, maintenance and operation of BAS.
4. Conducts periodic inspections of existing building systems, including HVAC and BAS, in order to determine priority for repair and/or upgrade of various system components.
5. Gathers manufacturer's technical data and analyzes it for the particular project requirements.
6. Works with engineers and contractors, as well as principals and staff, to fully utilize District's BAS investments.
7. Provides input for district design guidelines.
8. Reviews drawings and specifications from design professionals relating to new construction, remodeling and renovation of existing buildings and BAS system.
9. Develops construction estimates for budget purposes.
10. Develops and maintains a filing system for the latest programming revisions at each school, including plans, contractor's name, system modifications, warranty duration and follow-up inspections.
11. Performs other duties as assigned.

**Required Qualifications:**

1. Three (3) years of experience focused in BAS in the design, construction, renovations and/or operation and maintenance of institutional facilities. BAS experience must include coordinating BAS projects with engineers and contractor.
2. Must be a high school graduate or have passed the G.E.D. equivalency exam.
3. Must have an appropriate valid Florida Driver's License and must maintain the same during employment.
4. Must have a safe driving history prior to employment. Safe driving history shall be interpreted as follows: On a license record search, no accumulation of points totaling 8 or more in any 12-month prior within the 3 (3) years immediately preceding the record search;

5. and no conviction of DUI within the seven (7) years immediately preceding the record. A no-contest plea shall be considered the same as a conviction.
6. Must maintain a safe driving record while employed.

**Desired Knowledge, Skills and Abilities:**

1. Knowledge of techniques, methods, practices, and procedures used in conducting energy conservation studies and analyses, designing projects, preparing specifications, and coordinating energy management control system with special emphasis on BAS; heating, ventilation and air conditioning (HVAC) systems; and electrical systems BAS
2. Knowledge of state of the art BAS technologies and control sequences, BACNet protocol and functionality to District's BAS system
3. Knowledge of Video Security Systems as it relates to project planning
4. Knowledge of Video Security System installation, system testing and commissioning
5. Knowledge of Video Security Systems trouble shooting, planning and conducting training
6. Knowledge of building construction, electrical and mechanical principles and heat, air conditioning, refrigeration and associated system
7. Knowledge of all phases of construction including specifications, plans, scheduling, equipment and warranties
8. Knowledge of computerized building management systems
9. Knowledge of occupational hazards and safety precautions
10. Basic oral, written and interpersonal communications skills
11. Basic word processing and spreadsheet software skills
12. Ability to manage and coordinate projects of differing degrees of complexity and size with engineers, contractor, manufacturer's representatives, building principals and administrators, and governmental agencies as required
13. Ability to inspect construction and renovation sites as well as existing school facilities
14. Ability to estimate costs and analyze materials, labor and time for proposed BAS projects
15. Ability to project savings from energy conservation measures
16. Ability to conduct research, gather and analyze data and prepare reports
17. Ability to read, understand and apply Florida Department of Education, Florida Building Code and other governmental regulations that apply to building construction and energy
18. Ability to read, understand and apply job-related manuals, information, data and other materials
19. Ability to work independently and be results oriented
20. Ability to establish working relationships with principals, District administrators, BAS technicians and vendors, engineers and other employees

Pending School Board Approval: 10/20/2016
