II. JOB DESCRIPTION ACTIONS

A. Administrative

Approve the following job descriptions

REVISED

O-1.1.71

Business Automation System (BAS) Coordinator

Revision of this job description will more accurately reflect the administrative details of the duties and qualifications of the position. In addition to current roles, the Coordinator will have added responsibilities and supervision of assigned personnel.

Job Locator: O-1.1.71

Building Automation System (BAS) Coordinator

Position Grade: Coordinator IV II

Evaluated by: Director of Maintenance

or Assigned Administrator

Job Description:

~~Technical and administrative work developing and implementing HVAC and energy conservation projects, video security systems and overseeing and making recommendations regarding the design, installation and modification of district wide Building Automation Systems (BAS). This is an entry level, stand alone class.~~ Performs and directs installation, tests, programs, troubleshoots, and diagnoses all types of integrated control systems and associated software with building automation systems. Operates and maintains within District network the Niagara and KE2 dashboard for BAS integrated controls for all District facilities; Supervises, manages and directs assigned personnel, providing verbal and written instructions; Organizes and assigns daily work priorities; Demonstrates proficiency with computer skills; Complies with and supports all safety standards; Ensures quality control, code compliance and follows set building standards; Maintains familiarity with all facets of building automation systems (BAS); Coordinates with other District trades-people, senior staff, vendors and outside contractors when required;

Essential Functions (not intended to be all inclusive)-Responsibilities and duties of this position:

1. Supervises BAS Shop functions, personnel and related activities including scheduled and unscheduled maintenance and repair of building automation systems.
2. Manages BAS projects and warranties, including coordinating with engineers and contractors and performing job inspections.
3. Responds to reports from principals and coordinates corrective action with appropriate parties.
4. Provides technical guidance, assistance, and training to District staff regarding installation, maintenance and operation of BAS.
5. Conducts periodic inspections of existing building systems, including HVAC and BAS, in order to determine priority for repair and/or upgrade of various system components.
6. Troubleshoots and maintains large multi-tiered HVAC systems controls, associated controllers and their Direct Digital Controls (DDC) and other applications as warranted.
7. Maintains automated logic controls such as BacNet, Niagara Tridium and Trane Tracer protocols.
8. Programs digital access control locking systems.
9. ~~Gathers manufacturer's technical data and analyzes it for the particular project requirements.~~
10. ~~Works with engineers and contractors, as well as principals and staff, to fully utilize District's BAS investments.~~
11. ~~Provides input for district design guidelines.~~
12. Reviews drawings and specifications from design professionals relating to new construction, remodeling and renovation of existing buildings and BAS system.
13. ~~Develops construction estimates for budget purposes.~~
14. Develops and maintains a filing system for the latest programming revisions at each school, including plans, contractor's name, system modifications, warranty duration and follow-up inspections.
15. Performs other duties of a similar nature or level as assigned.

Required Qualifications:

1. ~~Three (3) Five (5) years of experience focused in BAS in the design, construction, renovations and/or operation and maintenance of institutional facilities. BAS experience must include coordinating BAS projects with engineers and contractor.~~
2. Must have good communications skills both verbal and written.
3. Read, understand and interpret architectural blueprints and integrated system sequence of operations.

4. Requires a minimum of a vocational or technical training in computer science, programming or related field.
5. Requires NICET level-2 technical certification for video security systems.
6. Requires industry certification standard for Niagara Ax/4 integrated controls or better.
7. Must be a high school graduate or have passed the G.E.D. equivalency exam.
8. Must have an appropriate valid Florida Driver's License and must maintain the same during employment.
9. Must have a safe driving history prior to employment. Safe driving history shall be interpreted as follows: On a license record search, no accumulation of points totaling 8 or more in any 12-month prior within the 3 (3) years immediately preceding the record search; and no conviction of DUI within the seven (7) years immediately preceding the record. A no-contest plea shall be considered the same as a conviction.
10. Must maintain a safe driving record while employed.

Desired Knowledge, Skills and Abilities:

1. ~~Knowledge of techniques, methods, practices, and procedures used in conducting energy conservation studies and analyses, designing projects, preparing specifications, and coordinating energy management control system with special emphasis on BAS; heating, ventilation and air conditioning (HVAC) systems; and electrical systems BAS~~
2. ~~Knowledge of state of the art BAS technologies and control sequences, BACNet protocol and functionality to District's BAS system~~
3. ~~Knowledge of Video Security Systems as it relates to project planning~~
4. ~~Knowledge of Video Security System installation, system testing and commissioning~~
5. ~~Knowledge of Video Security Systems trouble shooting, planning and conducting training~~
6. ~~Knowledge of building construction, electrical and mechanical principles and heat, air conditioning, refrigeration and associated system~~
7. ~~Knowledge of all phases of construction including specifications, plans, scheduling, equipment and warranties~~
8. ~~Knowledge of computerized building management systems~~
9. ~~Knowledge of occupational hazards and safety precautions~~
10. ~~Basic oral, written and interpersonal communications skills~~
11. ~~Basic word processing and spreadsheet software skills~~
12. ~~Ability to manage and coordinate projects of differing degrees of complexity and size with engineers, contractor, manufacturer's representatives, building principals and administrators, and governmental agencies as required~~
13. ~~Ability to inspect construction and renovation sites as well as existing school facilities~~
14. ~~Ability to estimate costs and analyze materials, labor and time for proposed BAS projects~~
15. ~~Ability to project savings from energy conservation measures~~
16. ~~Ability to conduct research, gather and analyze data and prepare reports~~
17. ~~Ability to read, understand and apply Florida Department of Education, Florida Building Code and other governmental regulations that apply to building construction and energy~~
18. ~~Ability to read, understand and apply job related manuals, information, data and other materials~~
19. ~~Ability to work independently and be results oriented~~
20. ~~Ability to establish working relationships with principals, District administrators, BAS technicians and vendors, engineers and other employees~~

School Board Approval: 5/4/2017

Pending School Board Approval: 8/2/2018

II. JOB DESCRIPTION ACTIONS

B. Support

Approve the following job description:

NEW:

C-3.4.61

Building Automation Systems (BAS) Technical Assistant

New job description that would assist the BAS Specialist in maintaining all district integrated automated building systems. The Building Automation Systems (BAS) Technical Assistant would serve the District by working with the BAS Technician to assist in facilitation of the BAS program and maintenance of all District integrated direct digital control (DDC) systems.

C-3.4.62

Building Automation Systems (BAS) Specialist

New job description that would address the increase in advanced integrated automated building systems throughout the District. The BAS Specialist would work with the current Building Automation Systems Coordinator to facilitate the BAS program, maintaining all District integrated direct digital control (DDC) systems.

Job Locator: C-3.4.61

Building Automation Systems (BAS) Technical Assistant

Position Grade: Support Salary Schedule B22 12 Months

Evaluated By: Director of Maintenance or

Assigned Administrator

Job Description:

Assists and works with the BAS Specialist to program, monitor, install, test, inspect, diagnose and repair District building automation integrated systems to ensure safe and continuous operation; Performs assignments under the direction of more experienced personnel and may assume more complex tasks given more experience and on-the-job training; Provides assistance in maintaining records and completing work using both digital and written work orders as assigned; Complies with and supports all safety standards.

Responsibilities and Duties of this Position:

1. Assists BAS Specialist in maintaining District automated building systems including heating, ventilation air conditioning (HVAC), digital bell schedules, lighting controls, building access controls, video security systems and other digitally integrated systems as assigned.
2. Monitors the operation of automated building systems such as Energy Management Systems.
3. Assists and participates in programing digital access control locking systems, maintaining computerized databases and installing upgrades to automated building systems.
4. Assists in performing installation, repair and preventive maintenance on HVAC electronic controls.
5. Troubleshoots, tests and repairs large multi-tiered HVAC systems, associated controllers, and their Direct Digital Controls (DDC), and other automated building applications as assigned.
6. Assists with programing automated logic controls systems such as BacNet and JACE protocols.
7. Works with industry related tools, computers and associated software; utilizes digital multimeter and related controls calibration and testing tools as they pertain to servicing DDC systems and their end devices.
8. Performs other duties of a similar nature or level as assigned.

Required Qualifications:

1. Requires a minimum of one year previous experience troubleshooting, programming, repairing and maintaining automated building systems and equipment or vocational/technical certification in either HVAC, electronic digital controls, computer science, or related field or a combination of previous education/training/experience which provides for an equivalent background necessary to perform the job.
2. Read, understand and interpret architectural blueprints, and building mechanical system sequence of operations.
3. Working knowledge of Microsoft Office products.
4. Must be a high school graduate or have passed the G.E.D. equivalency exam.
5. Must have an appropriate valid Florida Driver's License and must maintain the same during employment.
6. Must have a safe driving history prior to employment. Safe driving history shall be interpreted as follows: On a license record search, no accumulation of points totaling 8 or more in any 12-month prior within the 3 (3) years immediately preceding the record search; and no conviction of DUI within the seven (7) years immediately preceding the record. A no-contest plea shall be considered the same as a conviction.
7. Must maintain a safe driving record while employed.

Pending School Board Approval: 8/2/2018

Job Locator: C-3.4.62
Building Automation System (BAS) Specialist
Position Grade: Support Salary Schedule B31 12
months
Evaluated by: Director of Maintenance
or Assigned Administrator

Job Description:

Works with the BAS Coordinator to program, monitor, install, tests, inspect, diagnose and repair building automation systems (BAS) including heating, ventilation air conditioning (HVAC), digital bell schedules, lighting controls, building access controls, video security systems and other digitally integrated systems; Documents work completed using both digital and written work orders as assigned; Complies with and supports all safety standards.

Responsibilities and Duties of this Position:

1. Monitors the operation of automated building systems such as Energy Management Systems.
2. Assists in diagnosis and repair of malfunctioning automated building and HVAC systems.
3. Responsible for the implementation and maintenance of computerized databases; installs upgrades to automated building systems.
4. Responsible for programing digital access locking systems.
5. Assists in the installation, repair and preventive maintenance on all campus HVAC electronic controls.
6. Works with large multi-tiered HVAC system controls, associated controllers, and their Direct Digital Controls (DDC), and other applications as warranted.
7. Interfaces and programs automated logic control systems such as BacNet, Niagara and JACE protocols.
8. Works with industry related tools, computers and associated software; utilizes digital multimeter and related controls calibration and testing tools as they pertain to servicing DDC systems and their end devices.
9. Read, understand and interpret architectural blueprints, and HVAC system sequence of operations.
10. Performs other duties of a similar nature or level as assigned.

Required Qualifications:

1. Requires a minimum of five years previous experience programming and commissioning HVAC control systems, electrical experience equivalent to a Journeyman Electrician license or Associate's degree (A. A.) or equivalent from two-year college or technical school in HVAC, Computer Science, or Computer Science related field or a combination of previous education/training/experience which provides for an equivalent background necessary to perform the job.
2. Experience with installation techniques and servicing/repairing BAS equipment.
3. Experience with Trane or Tridium Niagara AX/4 with multiple BAS integration protocols is highly preferred.
4. Working knowledge of Microsoft Office products.
5. Must be a high school graduate or have passed the G.E.D. equivalency exam.
6. Must have an appropriate valid Florida Driver's License and must maintain the same during employment.
7. Must have a safe driving history prior to employment. Safe driving history shall be interpreted as follows: On a license record search, no accumulation of points totaling 8 or more in any 12-month prior within the three (3) years immediately preceding the record search; and no conviction of DUI within the seven (7) years immediately preceding the record. A no-contest plea shall be considered the same as a conviction.
8. Must maintain a safe driving record while employed.
