

## Summary of Changes in Proposed 2021 COE Plan from 2020's COE Plan

Page 1: Determination of Capacity

2020-2021:

During the 2020-2021 school year, a school will be subject to Controlled Open Enrollment when the school's enrollment is less than 85% of permanent Florida Inventory of School House (FISH) capacity. The schools participating in Controlled Open Enrollment will be updated and posted on the School District's website each year.

2021-2022:

During the 2021- 2022 school year, a school will be subject to Controlled Open Enrollment when the school's enrollment is less than 80% of the permanent Florida Inventory of School House (FISH) capacity. This determination takes into account the rapid growth in Clay County. In order to allow the District to plan for future growth and establish efficient attendance zones and boundaries, a new school will not be subject to Controlled Open Enrollment until it has been in operation for three (3) years. Upon completion of the school's third full year of operation, it will be included in the annual FISH calculation of available school capacity.

Page 1: Open Schools and Seats

2020-2021:
