

Partnership Executive Summary

Discovery Education is proud to partner with Clay County Schools in creating systematic and sustainable change that puts teachers at the forefront of a transformative movement.

This tailored professional development plan provides a research-based pathway for teachers to learn, reflect, reinforce and apply their knowledge to initiate and sustain shifts in instructional practice. The components of this professional learning plan include ten (10) content area focused teacher workshops.

Partnership Goals

We look forward to capitalizing on the success, momentum and enthusiasm within Clay County Schools to support the district's articulated partnership goals:

- Accelerate academic achievement and student engagement
- Transform a culture of teaching & learning
- Ignite a consistent, sustainable, inquiry-based and transdisciplinary approach to STEM

Professional Learning Plan

The professional learning plan for the Clay Connected Conference is outlined as follows:

Professional Learning Sessions - Elementary Teachers

Session 1: Explore the Core: Integrating Discovery Education Streaming Plus into your Instruction

Explore Discovery Education's extensive library of rich and engaging media and learn how Discovery Education Streaming Plus can help transform instruction in special-area classes and the arts. Participants learn how Discovery Education Streaming Plus supports multiple learning modalities with content that is aligned to standards and easy to integrate. A Discovery Education Specialist demonstrates site navigation throughout this training while providing integration ideas and discussing instructional strategies.

Session 2: Explore the Core: Integrating Discovery Education Streaming Plus into your Math Instruction

Explore Discovery Education's extensive library of rich and engaging media and learn how Discovery Education Streaming Plus can help transform math instruction. Participants learn how Discovery Education Streaming Plus supports multiple learning modalities with math content that is easy to integrate and aligned to standards. A Discovery Education Specialist demonstrates site navigation throughout this training while providing integration ideas and discussing instructional strategies.

Session 3: Explore the Core: Integrating Discovery Education Streaming Plus into your Science Instruction

Explore Discovery Education's extensive library of rich and engaging media and learn how Discovery Education Streaming Plus can help transform science instruction. Participants learn how Discovery Education Streaming Plus supports multiple learning modalities with science content that is easy to integrate and aligned to standards. A Discovery Education Specialist demonstrates site navigation throughout this training while providing integration ideas and discussing instructional strategies.

Session 4: Explore the Core: Integrating Discovery Education Streaming Plus into your ELA Instruction

Explore Discovery Education's extensive library of rich and engaging media and learn how Discovery Education Streaming Plus can help transform literacy instruction. Participants learn how Discovery Education Streaming Plus supports multiple learning modalities with content that is easy to integrate and aligned to standards. A Discovery Education Specialist demonstrates site navigation throughout this training while providing integration ideas and discussing instructional strategies.
