

Proposed Vision For Consideration

April 17, 2006

The School District of Clay County in partnership with families and community will provide a public education experience that is motivating, challenging, and rewarding for all children. Honesty and integrity, coupled with respect, individual responsibility, and learning opportunities that are rigorous, relevant and transcend beyond the boundaries of school walls, ensure an environment that maximizes student potential. Together we prepare life long learners for personal success in a global society.

Suggested Visions From April 6, 2006 Workshop

- 1) Clay District Schools provide personalized education for students through an engaged partnership with our families and community. Honesty and integrity, coupled with respect, individual responsibility and a rigorous and relevant curriculum ensure that our students have every opportunity for personal success.
- 2) The Public Educational Experience within Clay County will be motivating, challenging and rewarding for all children. This experience will transcend the boundaries that are confined within the books and materials utilized. Classroom teachers, administrators and parents will be focused on the common goal of student success and the obligation for enhancing each child's unique ability. Each school will become the central hub of the community linking families to educational opportunities and activities.
3. The School District of Clay County in partnership with families and community will facilitate an environment that maximizes student potential. Together we develop a foundation through rigorous and relevant learning opportunities to prepare life long learners for success in a global society.
