

MEMORANDUM OF AGREEMENT

This Memorandum of Agreement is entered into between the State of Florida, Department of Health, Baker County Health Department, hereinafter referred to as the Provider, and Clay County School Board, hereinafter referred to as the School Board, to provide dental services to students in Clay County public schools.

The purpose of the Dental Services Program is to reduce the incidence of dental disease by providing an effective preventive and treatment program. One of the most outstanding unmet needs in public health is that of dental services for the indigent school aged population. The Baker County Health Department Dental Program in conjunction with Clay County School Board will provide a school based dental care program. This program effectively eliminates the barriers which exist for many families seeking the care of a dentist: transportation problems, lack of information on how often children should be seen for check-ups, and time away from the job.
