REDISTRICTING PROCESS

STEP 1: Staff analyzes existing attendance boundaries. This analysis is to include, but not necessarily limited to, the following criteria: Historic enrollment trends, projected enrollment trends, school size and capacity, specific area population demographics, proximity, neighborhood concept, school bus transportation, walking distance, safety, stability and equity of distribution.

STEP 2: From data developed in the Step 1 analysis, options are to be developed. These options are to be unranked and are to represent the best alternatives in meeting the criteria of Step 1.

STEP 3: A meeting is scheduled to include the Assistant Superintendent of Support Services, Director of Facility Planning and Construction, the Coordinator of Planning and Intergovernmental Relations, the Director of Transportation, the appropriate Director of Elementary or Secondary Education, the Director of Exceptional Education (as necessary) and each affected School Principal. The purpose of the meeting is to rank the alternatives.

STEP 4: The Assistant Superintendent of Support Services will agenda the ranked redistricting alternatives during a Superintendent's staff meeting for general staff questions and discussions. The purpose is to encourage staff input to the Superintendent in order for the Superintendent to formulate his/her recommendation. Once the Superintendent's recommendation is formulated, the recommendation will be posted in each affected school. The Coordinator of Planning and Intergovernmental Relations will correspond with each affected school's School Advisory Committee for input, identification of timelines and process.

STEP 5: The Superintendent presents his/her recommendation to the School Board at an advertised School Board meeting. The Superintendent will request authorization to advertise the recommended school attendance boundaries in a local newspaper of general circulation. The advertisement will be for three (3) consecutive weeks. The recommendation will continue to be posted in each affected school and placed in the school newsletter if at all possible. The public will be allowed to address the recommendation if requested.

STEP 6: The Superintendent, after having advertised his/her recommendation, and after due consideration of additional input from staff and/or citizens, will agenda at the next School Board meeting approval of the original recommendation or revised recommendation for school attendance boundaries. A Public Hearing will be conducted by the School Board to seek public input at the meeting. Upon concluding the Public Hearing, the Superintendent's recommendation will be opened for discussion by the Board and ultimately acted upon either as the Superintendent's original or revised recommendation, as revised by the Board or tabled to a time certain for additional time of consideration.

STEP 7: Upon the School Board acting upon a new or revised school attendance boundary, the District's Facility Planning and Construction Department will update and post new or revised attendance boundary descriptions and maps, communicate same to each affected school, communicate same to the Board of Realtors and to any large development within the attendance boundary being affected.

"We're just looking for consistency here. For fair and equal treatment throughout an officer's career. Not actions taken on a political whim."

Gary Evans
Staff representative,
Fraternal Order of Police

Evans said.

Beseler argued that it is unlawful to fire anyone for political reasons and that just cause, a violation of some

kind, is necessary to fire an officer.

"If that were the case, I could have gotten rid of a lot of people that didn't support me but I kept them all. That's not lawful," he said.

Beseler said in 14 years, Clay County sheriffs have never disagreed or overridden the board's ruling. During his tenure, he's had one appeal and the board upheld his decision.

The magistrate, Stanley Sergent, in his report ruled in favor of the existing policy and said the FOP presented no evidence to show the existing policy is flawed, biased, ineffectual or unfair.

Sergent's arbitration fee was \$9,000, split between the FOP and the sheriff's office.

Beseler said he's agreeable to everything and is ready to sign a contract.

"The ball is back in the FOP's court now," he said.

If a person decides to appeal any decision made by the Board, Agency or Commission with respect to any matter considered at such meeting or hearing, he will need a record of the proceedings, and for such purpose he may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.

RE: PROPOSED SCHOOL ATTENDANCE BOUNDARY CHANGES

Dear Parent(s)/Guardian(s):

The purpose of this letter is to inform you of proposed changes to school attendance boundaries in your area. Clay County's population is growing at a high rate which necessitates new schools to serve the increasing number of students. Redistricting has to occur to balance the number of students between the existing schools and the newly constructed schools. The School Board is considering the attendance boundary recommendations for OakLeaf Village Elementary and Shadowlawn Elementary Schools and revisions to OakLeaf School, Argyle Elementary, Lake Asbury Elementary, Middleburg Elementary, Charles E. Bennett Elementary, RideOut Elementary and Thunderbolt Elementary Schools' attendance boundaries. The recommendation will become effective for school year 2008/2009. Please refer to the attached map. There is more detailed information on the School District's web site at www.clay.k12.fl.us.

The School Board will conduct a public hearing on this proposed redistricting at the January 17, 2008 School Board Meeting held at Fleming Island High School, at 7:00 p.m.

If you have a specific issue or need clarification about the attendance boundary, you may also contact Jim Connell, Director, Facility Planning and Construction at 284-6517.

Sincerely,

RE: PROPOSED SCHOOL ATTENDANCE BOUNDARY CHANGES

Dear Mr. East:

The Superintendent of Schools, Mr. David Owens, is recommending the attached attendance boundaries for OakLeaf Village Elementary and Shadowlawn Elementary and revisions to OakLeaf School, Argyle Elementary, Lake Asbury Elementary, Middleburg Elementary, Charles E. Bennett Elementary, RideOut Elementary and Thunderbolt Elementary Schools' attendance boundaries, effective August 2008. This plan considers many issues including, but not limited to, neighborhood concepts, transportation, long range enrollment, existing school capacities and growth trends, and student distribution.

The timeline for this is as follows:

January 17, 2008 School Board Public Hearing
 School Board Discussion and Approval

August 2008 Attendance Boundaries effective

The Public Hearing is scheduled for January 17, 2008 at the Teacher In-Service Center at Fleming Island High School, 2233 Village Square Parkway, Orange Park, Florida.
