---	---	--

<p>Health / Fitness</p> <p><input type="radio"/> YES</p> <p><input type="radio"/> NO</p>	<p>OBJECTIVE(S):</p>
--	----------------------

Student
Safety

OBJECTIVES(S):

YES

NO

Objective Fleming Island Elementary students will learn in a safe environment.
(Our school was under construction and fencing was put in place to protect students.
Also student mobility was restricted in key areas to enhance safety. Fund raising for
additional fencing was established.

OTHER

OBJECTIVES(S):

YES

NO

Objective IAQ concerns will be minimized by focusing on prevention. When problems arise, the site-based instructional and custodial staff will attempt to identify and resolve common problems. The Principal will bring in District-level facility environmental management support as necessary. Among the greatest challenges in managing relative humidity is keeping warmer temperatures in classrooms during the cooling season. It is important to keep the building dry and above the outdoor dew point temperature. Preventing dust accumulations will reduce the burden of allergens for which people will be exposed. Chemicals will be used and stored with safety and ventilation in mind.

Implemented Strategies:

***Based on the SAC's examination of the definition of adequate progress for each goal included in the plan and the data/information to support it. Attach brief explanation if adequate progress has not been made.**
