Indicate with an "x" the school health services provided in your county:

Basic School Health
Comprehensive School Health
Full Service Schools
Exceptional Student Education

Pre-Kindergarten
Teenage Parent Program
Volunteer School Nurse Project

2006-07 Annual School Health Services Report for:

CLAY County

ANNUAL SCHOOL HEALTH SERVICES REPORT

**Part I: Basic School Health Services (in Basic, Comprehensive and Full Service Schools)
Reporting Period July 1, 2006 through June 30, 2007**

OVERVIEW OF SCHOOLS

DIRECTIONS: Provide the numbers of public (INCLUDING CHARTER AND ALTERNATIVE) schools and students in your county. **Schools with Combined School Levels** are those that have two or more school levels on one campus (e.g., K - 8th, 6th - 12th grade). **DO NOT INCLUDE** Department of Juvenile Justice, Adult, Adult Vocational schools or private schools. **Free-Standing Pre-K** schools are those that do not reside on the campus of an elementary or combined level school.

BASIC ONLY schools are those that only receive basic school health services and are not designated CSHSP or FSS.
CSHSP schools are those that are designated part of a Comprehensive School Health Services Project, with staff paid for by SHIP funds (GR, Title XXI, TANF), and provide services that meet CSHSP criteria.
CSHSP / FSS schools are those that are designated both CSHSP and FSS, have staff that are funded by SHIP and Full Service funds, and provide services that meet the CSHSP and FSS criteria.
FSS schools are those are designated as Full Service with staff paid for by Full Service funds (Tobacco, TANF), and provide services that meet FSS criteria.

PUBLIC SCHOOLS & STUDENTS BY SCHOOL HEALTH PROGRAM	Free-standing Pre-K Schools	Elementary Schools	Middle Schools	High Schools	Schools with Combined School Levels (e.g., K-8, 6-12)	Totals
BASIC ONLY Schools	0	12	4	5	1	22
BASIC ONLY Students	0	10,717	3,850	9,599	1,630	25,796
Comprehensive School Health Services Projects (CSHSP) Schools	0	2	0	0	1	3
CSHSP Students	0	1,863	0	0	1,386	3,249
Full Service Schools (FSS)	0	4	0	0	1	5
Full Service Students (FSS)	0	2,623	0	0	169	2,792
CSHSP/FSS Schools	0	4	1	0	0	5
CSHSP/FSS Students	0	2,795	815	0	0	3,610
TOTAL Public Schools	0	22	5	5	3	35
TOTAL Public Students	0	17,998	4,665	9,599	3,185	35,447

I-B.1 Instructions: To calculate the countywide total number of school health room visits during **FTE WEEK** -

- (1) For each elementary school add the number of school health room visits during each of the five days of February FTE week. (2) Add together the five-day totals from all elementary schools for the countywide total.
- (3) Repeat the procedure for free-standing pre-K, middle, high and combined level schools.

I-B.1 FIVE-DAY TOTAL of school health room visits during February FTE week (e.g. first aid, medication administration, counseling, etc.)	Free-Standing Pre-K	0
	Elementary Schools	4,229
	Middle Schools	942
	High Schools	1,410
	Combined Levels	315
Total	6,896	

I-E.1 Total number of intentional injuries treated 30

I-E.2 Total number of calls to 911 2

I-F.1 Number of students who were excluded from school health services at parental request (previously I-J.1) 59

I-G.1 Number of chronic health conditions that are identified through review of emergency information records, physical assessments, or physicians diagnosis on medication administration form

TYPES OF CHRONIC HEALTH CONDITIONS BY SCHOOL TYPE

Type of Chronic Health Condition	School Type					TOTALS
	Free- Stand- ing Pre-K Schools	Elementary Schools	Middle Schools	High Schools	Com- bined School Levels	
ADD/ADHD	0	511	253	443	160	1,367
Allergies	0	1,504	667	1,392	386	3,949
Asthma	0	1,110	422	772	205	2,509
Bleeding Disorder	0	4	0	2	1	7
Cancer	0	14	8	7	1	30
Cardiac Conditions	0	70	24	62	18	174
Cystic Fibrosis	0	4	1	2	1	8
Diabetes	0	31	11	37	13	92
Epilepsy / Seizures	0	63	26	40	7	136
Kidney Disorders	0	14	5	15	0	34
Psychiatric Conditions	0	410	160	325	130	1,025
Sickle Cell Disease	0	11	1	8	1	21
Other	0	706	524	926	336	2,492
TOTAL	0	4,452	2,102	4,031	1,259	11,844

Number of Students Needing Medications and/or Procedures and Number of Medications Administered and Prodedures Performed Per Week (During February FTE Week - For All Students)

I-H.1 Five-day number of students, and number of medications administered and procedures performed during FTE week. **Only use numbers, DO NOT use text characters, such as PRN.**

Instructions: To calculate the countywide total number of medication doses administered and procedures during FTE week: (1) For each elementary school add the number of medication doses administered and procedures during each of the five days in February FTE week. (2) Add together the five-day totals from all elementary schools for the countywide total. (3) Repeat the procedure for free-standing, middle, high, and combined level schools.

Procedure	Number of Students	Number of Medications/ Procedures Per Week
Carbohydrate Counting	82	248
Clean Catheterization	9	56
Colostomy, Jejunostomy, Ileostomy Care	3	10
Electronic Monitoring	2	2
Tube/PEG Feeding	15	82
Glucose Monitoring	118	601
Insulin Administration	49	206
Intravenous Treatments	0	0
Medications (Inhalator)	201	318
Medications (Injection)	30	89
Medications (Oral)	704	1,380
Medications (Other Routes)	30	105
Medications (Parenteral)	4	12
Oxygen Continuous or Intermittent	3	7
Specimen Collection or Testing	2	2
Sterile Catheterization	0	0
Tracheostomy Care	4	12
Ventilator Dependent Care	3	11
Other: Hearing Aid Monitoring	10	25
Other: Seizure Activity Monitoring	8	5
Other:	0	0
TOTALS	1,277	3,171

I-K.1 Number of schools that have adequate health room facilities as described in HRSM 150-25 (pp. 2 - 3, Standard 6); Chapter 6-2.001, Educational Facilities; State Requirements for Educational Facilities, December 1999.

35

ANNUAL SCHOOL HEALTH SERVICES REPORT
Part II: Comprehensive School Health Services Projects (CSHSP)
Reporting Period: July 1, 2006 through June 30, 2007

NOTE: Do not fill out this section if your county does not receive Comprehensive School Health Project (CSHSP) funding from the Department of Health.

DAILY HEALTH SERVICES LOG SUMMARY - Part II-A.1

Instructions: (Tables 1 through 7) Enter the total numbers for each type of service data by school level in for all of your county's CSHSP schools. The column and row totals will calculate automatically. Data from all the individual Comprehensive project schools must be totaled and submitted together in the tables below for the county. The Daily Health Services Log Summary charts will total to -0- if the grade level data are not provided. Data cannot be entered in the Total columns. If you do not have grade level data, put your totals in the Other column so it will add into the Total column.

- Table 1: Total Visits** - Enter the number of non-medication visits, medication visits and total number of visits by grade level.
- Table 2: Health Problems** - Enter the total number of visits for each of the listed health problems by grade level. This table should not include medication visits.
- Table 3: Outcome Dispositions** - Enter the total number of health room visit dispositions by grade level. This table should include medication visits.
- Table 4: Injury Classification** - Enter the number of injuries that were intentional, unintentional, or unknown, by grade level.
- Table 5: Injury Location** - Enter the number of injuries that occurred in Project schools at each location, by grade level.
- Table 6: Services by Provider** - Enter the total number of visits to each type of health services provider by grade level. This table should include medication visits.
- Table 7: Referrals to** - Enter the number of referrals to each of the listed services by grade level. This table should include medication visits.

Table 1: Total Visits	Free-Standing Pre-K Schools	Elementary Schools	Middle Schools	High Schools	Schools with Combined Levels	TOTALS
1. Total Non-Medication Visits	0	36,230	4,033	0	3,176	43,439

2006-07 Annual School Health Services Report for:

CLAY County

GROUP HEALTH SERVICES LOG SUMMARY FOR JULY 1, 2006 THROUGH JUNE 30, 2007 - Part II-A.2

INSTRUCTIONS: For each of the service codes shown below:

Code 6030: Enter the number of social interventions provided in each subject area, and enter the number of student and parent participants.

Code 8020: Enter the number of health education classes taught for each subject area, and the number of student and parent participants.

NOTE: Number of participants will reflect students who participate in each type of social intervention or health education activity. Since some students will participate in more than one group activity, this may be a duplicate count and exceed the total student population.

6030 SOCIAL INTERVENTIONS

Subject Code	# Social Interventions	# Student Participants	# Parent Participants	# Staff Participants
100 Dental Health				
200 General Health / Other	2,475	13	57	101

901 Staff Inservice	7			338
902 Parenting Skills				
TOTALS	412	39,840	0	1,364

NOTE: Counties with more than one Comprehensive project should complete one combined Group Health Services Log for all schools receiving CSHSP services.

2006-07 Annual School Health Services Report for:

CLAY County

II-A STUDENT HEALTH:

NOTE: The following questions refer to students and health events that occurred during the reporting period July 1, 2006 through June 30, 2007.

II-A.1 Number of students in grades 6 through 12 in Comprehensive School Health Services Project schools 2,844

II-A.2 Number of parents who refused permission for their children to participate in sexuality education classes 10

II-B RISK TAKING BEHAVIORS:

II-B.1 Number of CSHSP schools providing smoking cessation classes 0

II-B.2 Number of suicides by CSHSP students in grades 6 through 12 0

II-C TEEN PREGNANCY:

II-C.1 Number of female CSHSP students in grades 6 through 12 958

II-C.2 Number of births to CSHSP students in grades 6 through 12 4

II-C.3 Rate per 1,000 for births to CSHSP students in grades 6 through 12 4.18

II-C.4 Number of babies born to CSHSP students in grades 6 through 12 5

II-C.5 Number of low birth weight (<2,500 grams) babies born to CSHSP students in grades 6 through 12 0

II-C.6 Percent (%) of low birth weight (<2,500 grams) babies born to CSHSP students in grades 6 through 12 0%

II-C.7 Number of CSHSP students in grades 6 through 12 that return to school after giving birth this year 4

II-C.8 Percent (%) of CSHSP students in grades 6 through 12 who returned to school this year after giving birth 100.0%

PART III: FULL SERVICE SCHOOLS
III-A: IN-KIND SERVICES PROVIDED IN FULL SERVICE SCHOOLS BY COMMUNITY AGENCIES

For in-kind hours and value of in-kind services, put annual totals (not weekly totals) and use only numbers (no text characters (i.e., per week)).

TOTALS	0	0

PART IV: STAFFING

Florida School Health Room Staffing by School Level - 2006-07

Please document the current number of K-12 schools in your county by school level, and the number of schools that have full-time (6-8 hours per day) school-based health staff located on-site by staff category and school level. If you have registered nurses (RN) or licensed practical nurses (LPN) hired and functioning as health aide/techs, please count them in the Health Aide column. Full-Time means 6 to 8 hours per school day for a minimum of 180 school days per year (school year) or more. Include only health staff that are providing services to the general student population, not health staff that are exclusively ESE or one-on-one.

	Elementary Schools	Middle Schools	High Schools	Combined Levels Kindergarten - 12th Grade	Combined Levels Kindergarten - 8th Grade	Combined Levels 6th Grade - 12th Grade	Other Combination from Kindergarten - 12th Grade	TOTALS
Number of Schools in District	22	5	5	0	1	2	0	35
Number of Schools with Full-Time ARNPs	0	0	0	0	0	0	0	0
Number of Schools with Full-time RNs	13	3	5	0	0	1	0	22
Number of Schools with Full-Time LPNs	12	3	2	0	1	1	0	19
Number of Schools with Full-Time Health Aides	3	1	1	0	0	1	0	6
Total Number of Schools with a Full-Time ARNP, RN, LPN or Health Aide	22	5	5	0	1	2	0	35
Total Number of Schools Without a Full-Time ARNP, RN, LPN or Health Aide	0	0	0	0	0	0	0	0

IV-A.1: Information on Registered Nurses Employed in School Health During FY 2006-2007

Instructions: Provide the numbers of registered nurses (RNs) working in your county's school health program (the RNs reported in Staffing Pages 13 and 14) according to their highest educational degree obtained. Make one (1) degree entry per registered nurse.

Hiring Entity	Diploma In Nursing	Associate Degree in Nursing	Bachelor Degree in Nursing	Bachelor Degree Other	Master Degree in Nursing	Master Degree Other	Doctorate Degree in Nursing	Doctorate Degree Other
County Health Department	1	2	2	1	0	0	0	0
County School Board	6	12	4	0	0	0	0	0
Public/Private Partners	0	0	0	0	0	0	0	0
TOTALS	7	14	6	1	0	0	0	0

IV-A.2: Information on Nationally Certified School Nurses Employed in School Health During FY 2006-2007

Instructions: Indicate below the number of Nationally Certified School Nurses that were employed during 2006-2007 as school health nurses in your county's school health program.

HIRING ENTITY	Number of Registered School Nurses with National (NCSN) Certification
County Health Department	1
County School District	0
Public-Private Partners	0
TOTALS	1

Instructions for Completing Staffing by Program and Hiring Entity Section

Distribution of FTEs between programs and positions: (Do not duplicate staff in more than one program)

- Staff that spend time providing services between Basic school health and Full Service Schools must divide their FTEs between the programs. For example, a registered nurse working half-time for Basic school health and half-time for Full Service would be represented by .50 of an FTE in Basic and .50 of an FTE in Full Service. To satisfy federal funding requirements, positions funded by Comprehensive Title XXI and/or TANF must work 100% in the Comprehensive program, and their time and services must be coded to Comprehensive DAU number/s.
- When a staff person works part-time for Basic school health and/or Full Services Schools, and part-time for another county health department (CHD) program, only the time spent in school health can be reflected in the staffing tables. For example if an RN works 3/4 of their time in school health and 1/4 time in CHD clinic, only .75 of an FTE should be reflected in the staffing tables.
- If an RN is a school health coordinator or supervisor and spends time providing direct services for students in school health rooms, the position's FTE should be divided between coordinator/supervisor and registered nurse (RN). For example, if an RN is a coordinator/supervisor, but spends 6 hours a day for the 180 days of school year providing health room services, the RN could put a portion of an FTE in coordinator/supervisor and the remaining portion of an FTE in the RN position.

School Health Staffing Budget () from All Sources:

- For staff reported on all of the following staffing pages, the School Health Staffing Budget () from All Sources should include all of the funding (regardless of funder -- CHD, school district or other) that help pay for the salary and fringe for the program's positions listed on that page.

School Health Services 2006-2007 Program Management

Which agency (county health department, school district, health care district, hospital, other) has functional responsibility for the oversight and delivery of school-based health services?

Name: Maria LaRocca
 (Name of School Health Coordinator for the primary school-based health services provider)

Credentials: RN, BSN
 (Academic and/or Professional)

Position: School Health Program Coordinator
 (Agency Job Title)

Agency: Clay County Health Department
 (School District, County Health Department, Other)

Mailing Address: 1305 Idlewild Avenue
 (Street address or Post Office Box)
Green Cove Springs, FL 32043
 (City, State Zip)

Phone: 904-284-6340 x161 Suncom Phone: 891-1042 Fax: 904-284-6373

Email: maria_larocca@doh.state.fl.us

CSHSP SCHOOLS:	

PART V. SCHOOL HEALTH SERVICES 2006-2007 REVENUES AND EXPENDITURES

DIRECTIONS FOR COMPLETING PART V

Part V is composed of School Health Services revenues and expenditures. Both revenues and expenditures are submitted annually.

PAGE 23: 2006-2007 REVENUE - Indicate on the appropriate line the revenues expended from all sources which are providing funding for the School Health Services program for state fiscal year 2006-2007.

PAGE 24: SCHOOL HEALTH SERVICES 2006-2007 CONTRACTUAL AND OTHER ARRANGEMENTS

In this section document the flow of school health funding between entities in your county.

PAGES 25-27: 2006-2007 CHD EXPENDITURES - SCHEDULE C AND OTHER

Box A: CHD Revenue Source: Indicate the CHD Schedule C allocations for School Health Services.

Box B: CHD Expenditures of Schedule C funds (lines 1-12): In this section only the budget for CHD Schedule C monies should be itemized. Funds contracted to other agencies should be included as an budgeted item of the CHD on line 9.

List the amount of expenditures by the expenditure categories listed below. Round to the nearest dollar amount.

#1 - Personnel - Includes salary for direct service providers, supervisors, and coordinators.

#2 - Fringe Benefits - Career service fringe benefits comprise up to 35% of salaries and wages. FICA for OPS is 7.65%.

#3 - Printing - Includes printing, photocopying, and postage.

#4 - Travel - Includes routine travel within the county.

#5 - Staff Training/Education Expenses - Includes travel, per diem, and registration expenses related to staff training, education and conferences.

#6 - Supplies and Materials - Includes supplies such as first aid supplies, office supplies, and educational materials that are not obtainable from other sources.

#7 - Medical and Office Equipment - Includes equipment such as blood pressure cuffs, scales, stethoscopes, and filing cabinets.

#8 - Operating Capital Outlay (OCO) - OCO includes furniture and equipment that is 1,000 or more per item.

#9 - Contracted Services - Includes all services and personnel which are provided by another agency through a Standard State Contract with a Performance Based Attachment I.

#10 - Indirect Costs - Indirect costs are administrative costs and charges applied to a program or project as part of the total overhead. Indirect costs cannot exceed fifteen percent (15%) of the CHD School Health Categorical funding in Revenue Sources. Indirect costs for Full Service Schools are limited to no more than five percent (5%).

2006-07 Annual School Health Services Report for:

CLAY County

#11 - Other - Other expenditure that does not fit in any of the above categories. Please specify what the "Other" expenditure is.

#12 - The total expenditure listed in the totals column of Box B, line 11 should match the total revenues listed in Box A. The sum of expenditures listed in the totals column of Boxes D, F and H, line 11 should match the total contract revenues listed in Boxes C, E, & G.

Box C, E, & G: Revenue received from CHD Schedule C: Indicate the amount of CHD Schedule C funds for School Health Services which the CHD contracts to the school district or other entities. If the CHD does not provide any Schedule C funds to the school district or other entities, boxes C, D, E, F, G and H will not need to be completed.

Boxes D, F, & H: School District Expenditures from CHD Contract - lines 1 - 11: These boxes should reflect expenditures by category of CHD revenue contracted to the school district or other entities. CHD funds which the school district or other entities subcontracts to a third agency should be entered on line 9.
