Subject: Charter Application Withdrawl

Maureen,

After careful consideration, the founding board members of Global Village Academy have decided to request that our application be withdrawn from the grading and approval process.

Although we still feel that a charter school would be a positive for Clay County, we feel that the application, as submitted, does not reflect the high standards that a charter school must have to be successful. Our goal is to provide an education to children that will allow them to compete in a global community, and our charter school must be founded upon an application that has completely answered how we will meet this challenge. Although our current application has many strong points, we have come to realize that it does not provide as solid of a foundation as the children of Clay County deserve. For these reasons, we respectfully request that our application be withdrawn from consideration.

We would like to thank Clay County for the opportunity to apply as a charter school, and offer thanks to the staff who have been more than courteous and helpful along the way. Should the founding members decide to rewrite the weak sections of the application, and submit anew next year, we will look forward to working with the staff of Clay County School District to again work towards our common goal of providing the best education possible to the children of Clay County.

Sincerely,

Angela Heiney
