ATTACHMENTS

Attachment 1 5-Year District Facilities Work Program 1-25

INTRODUCTION

The Educational Facilities Plan (EFP) is prepared annually, prior to the adoption of the District's annual budget, pursuant to the requirements of Section 1013.35, Florida Statutes. Prior to October 1st each year, the plan is submitted to the Florida Department of Education (FDOE) for review and to all affected local governments to be reviewed for consistency with its comprehensive plan.

The plan provides the proposed commitments and planned expenditures of the District to address the educational facilities needs of its students and to adequately provide for the maintenance of the educational and ancillary facilities, including safe access ways from neighborhoods to schools. The plan must include the following:

- (a) Projected student populations;
- (b) An inventory of existing school facilities including ancillary facilities;
- (c) Projections of facility space needs;
- (d) Information on leased, loaned and donated space and relocatables;
- (e) The general location of new schools;
- (f) Options to reduce the need for additional permanent new stations; and
- (g) The criteria and methods for determining the impact of proposed development on public school capacity.
- (h) A financially feasible Work Program for a 5-year period.

Upon giving proper notice to the public and local governments and an opportunity for public comment, the District may amend the plan to revise the priority of projects, to add or delete projects, to reflect the impact of change orders, or to reflect the approval of new revenue sources which may become available.

The Educational Facilities Plan has been divided into the following sections:

Section 1: Planning. This section addresses the various planning concepts, methodologies, and processes that the School District must implement in order to prepare a financially feasible plan. Topics discussed in this section include: enrollment forecasting, existing school inventory, future school, construction costs, and school concurrency.

Section 2: Maintenance and Transportation. This section addresses maintenance projects and bus transportation plans for the District.

Section 3: Capital Outlay Plan. This section provides the sources of revenues used to finance our educational projects and itemizes our planned expenditures to arrive at a balanced plan.

Section 4: 5-Year District Facilities Work Program. This section provides the 5-year work program which includes a 10-year and 20-year long range plan. This document is also submitted electronically to the FDOE using its prescribed format.

SECTION 1. PLANNING

1.1 Population and Housing Demographics

Over the last decade, Clay County's population increased from 105,986 (1990) to 140,814 (2000), a 32.9% increase. The 2006 population estimate is 176,901 as shown in Table 1.1. The Bureau of Economic & Business Research (BEER) has forecasted that Clay County's population will reach 201,100 by 2010, and a population of 255,600 by 2020 and 300,900 by 2030.

In 2000, U.S. Census Bureau reported there were 53,748 households in Clay County with an average household size consisting of 2.77 people. The 2006 housing estimate is 65,570 housing units with an average household size consisting of 2.75 people.

Table 1.1 2006 Population Estimates

Area	2006
Green Cove Springs	6,381
Keystone Heights	1,411
Orange Park	9,034
Penney Farms	633
Unincorporated	159,442
Total Clay	176,901

1.2 Student Enrollment Projections

The FDOE annually prepares Capital Outlay of Full-Time Equivalent (COFTE) Public School Enrollment projections for each school district for a 10 year period. The COFTE methodology uses a cohort-survival technique that presumes that the last five years is the best predictor of the next 10 years. The projections are district-wide and are broken down by grade. FDOE projections are for public school enrollment only and do not include private school, charter school or home school enrollment. Table 1.2 shows actual and projected COFTE for pre-kindergarten (Pre-K) through grade twelve (12) enrollment through 2011-12. The District enrolled 35,193 K-12 students in the 2006-07 school year (SY). The K-12 enrollment is forecast to be 43,122 students by SY 2011-12.

The District allocates the COFTE projections among the individual schools based on a variety of projection techniques including local knowledge about the school system, enrollment patterns, school programs and development activity. The student enrollment projections apportioned geographically by individual school attendance zones are shown in Table 1.3.

1.3 Classroom Requirements

The District has been actively planning capital projects to meet the new Class Size Reduction (CSR) requirement, approved by voters in 2002. The CSR requires one teacher for 18 students in grades PreK-3, one teacher for 22 students in grades 4-8, and one teacher for 25 students in grades 9-12. For fiscal year 2007-08, compliance is determined for each of the three grade groupings by the average at the school level. However, by fiscal year 2008-09 and thereafter, compliance will be determined at the individual classroom level. Table 1.4 shows the number of additional classrooms required to meet the projected COFTE student enrollment based on the CSR mandate.

1.4 Existing and New School Facilities

An inventory of existing schools is shown in Table 1.5 and the locations are shown on Map 1.1. The District does not utilize any leased or loaned facilities for classroom purposes.

In the next 5 year period, the District plans to construct five new schools. By the 2026-27 school year, a total of 24 schools are planned to be constructed. The proposed new schools for the 5, 10 and 20 year periods are shown in Table 1.6 and Map 1.2. The general locations of future school sites are based on the school siting policies in the interlocal agreement and comprehensive plans of the local governments.

Map 1.2

1.5 Construction Costs

The cost of construction for new schools is provided by the FDOE. For January 2006, the FDOE reported the student station cost for elementary, middle and high schools to be \$17,952, \$19,386 and \$25,181, respectively. These costs are expected to rise to \$21,854, \$23,599 and \$30,654 for elementary, middle and high schools, respectively by January 2016.

The construction costs provided by FDOE do not include the cost for land acquisition. According to the most recent school impact fee study, land values in Clay County are approximately \$47,700 per acre. The District's recommended acreage needs and number of student stations for proposed school sites are shown in Table 1.7. However, the minimum acreage and design capacity must comply with the standards established in the State Requirements for Educational Facilities (SREF).

Table 1.7 School Construction Costs

School	Acreage	# of Student Stations	Cost per Student Station	Total Construction Cost
Elementary	30	862	\$18,549	\$15,989,238
Junior High	40	1,117	\$20,031	\$22,374,627
Senior High	60	1,684	\$26,019	\$43,815,996

¹ Cost per Student Station is based on July 2007 cost factors per school type.

² Number of Student Stations is based on the most current Educational Facilities List and Plant Survey.

³ Total Cost is product of the cost per student station and number of student stations for each school type.

Source: Student Station Cost Factors, DOE, March 5, 2007

1.6 Permanent Student Station Reduction

In order to reduce the need for additional permanent student stations, the District will consider options such as redistricting, reassignment, and expanded capacity utilization (i.e. year-round school, split scheduling, and block scheduling). Currently, the District is using co-teaching in several schools to accommodate the need.

1.7 School Concurrency

In June 2005, new growth management legislation State Senate Bill 360 (SB360) was approved. SB 360 makes school concurrency a mandatory requirement in the State of Florida. Each county and municipality within Clay County, unless exempt or eligible for a waiver, is required to adopt a School Concurrency Program by May 1, 2008. The following documents must be adopted or amended to establish a School Concurrency Program:

- A Public School Facilities Element
- Amendments to the Public School Interlocal Agreement between the local governments and school board;
- Amendments to the Intergovernmental Coordination Element;
- Amendments to the Capital Improvements Element.

The School Concurrency Program requires that all new residential development be reviewed to ensure that adequate school capacity will exist prior to or concurrent with the impact of the residential development, to support the additional student growth at the adopted level of service. The program will include the following key components:

- (a) **School Concurrency Service Areas** - Each school attendance zone will become its own School Concurrency Service Area (SCSA) for which school concurrency will be applied.
- (b) **Level of Service** - To ensure that the capacity of schools is sufficient to support student growth and prevent the over-crowding of schools, a level of service (LOS) standard of 110% for each school type in each SCSA has been established. A Long-term Concurrency Management System (LTCMS) will be utilized to address those schools for which backlogs exist. The LTCMS provides interim LOS standards for specific SCSAs for a 10-year period.
- (c) **School Capacity Analysis** - The capacity of a school is the lesser of the FISH capacity, dining capacity, or maximum school size. The FISH (Florida Inventory of School Houses) is the number of students that may be housed in a school at any given time based on a utilization percentage of the number of existing satisfactory student stations, as determined by FDOE formulas. The dining capacity is the number of students that may be housed in a school based on the size of the dining facility (cafeteria). School Board Policy 6.01(K) establishes a maximum school size for each school type as follows:

- Elementary – 1,000 Students
- Junior High – 1,500 Students
- High School – 2,500 Students
- 7-12 Combination – 2,500 Students
- K-8 Combination – 1,500 Students

Table 1.9 reflects the school capacity analysis through SY 2011-12.

- (d) **Student Generation Multiplier** - A component of the school concurrency process is projecting the number of students that will be generated from new residential development. Using data from the U.S. Census 2000 and the District's monthly membership report, a student generation multiplier was derived. The number of residential units will be converted into projected students for each schools type using the Student Generation Multiplier, as established in Table 1.10.

1.8 School Concurrency Initiatives

- (a) **Initial Five-Year Initiatives**
 - 1. Establish L.O.S. at 110% for each school Type, and
 - 2. Construct Elementary School “W” by 2008/09
 - 3. Construct Elementary School “X” by 2008/09
 - 4. Construct Elementary School “Z” by 2009/10
 - 5. Construct High School “QQQ” by 2010/11
 - 6. Construct Elementary School “Y” by 2011/12

(b) Long Range (Beyond Five Years) Corrective Plan

1. Construct Elementary School 'R' by 2012/13
2. Construct Elementary School "C" by 2012/13
3. Construct High School "RRR" by 2015/16
4. Increase cafetorium capacity to 1200 at MBE by 2013/14
5. Increase cafetorium capacity to 1200 at DIS by 2014/15
6. Redistrict or otherwise reduce enrollment at KHE by \pm 250 by 2013/14
7. Reduce enrollment at MHS by 500 students by 2015/16
8. Reduce enrollment at RHS by 400 students by 2015/16

9-12	0.5456	X	28.41%	=	0.1550

SECTION 2. MAINTENANCE AND TRANSPORTATION

2.1 Maintenance and Repairs

Maintenance and repairs must be done to ensure that buildings function efficiently and remain environmentally safe and secure. Special maintenance projects such as renovations, HVAC systems, roofs, and flooring are undertaken throughout the year. Until completed, an annual funding level of \$150,000 per year has been allocated for ADA deficiencies. A summary of maintenance projects for the 5-year period is shown in the Capital Outlay Expenditures in Section 3 of this document.

2.2 Bus Transportation and Equipment

Each year buses are purchased and replaced due to enrollment growth and additional school programs. The projected cost for new buses in 2007-08 is expected to increase by 11% plus \$4,400 per bus over 2006-07 costs. Thereafter, the bus costs are projected to increase approximately 6.5% per year. Passenger bus and radio costs are shown in Tables 2.1 through 2.3. The 5-year bus inventory is shown in Table 2.4.

Table 2.1 Regular Education Buses

SECTION 3. CAPITAL OUTLAY PLAN

3.1 Revenue Sources

Capital Projects Funds are used to account for financial resources that the district uses for acquisition or construction of major capital facilities and improvements to existing facilities. Land acquisition, equipment purchases, buses, maintenance and capital debt service are also accomplished with these funds. There are several revenue sources that are designated to fund all of the capital projects for the 5-year and 10-year periods:

- (a) **Public Education Capital Outlay (PECO)** funds are derived from a Gross Receipts Tax on utilities, and are reallocated to each school district by the State Legislature in the form of Public Education Capital Outlay Funding. Funds are allocated from a lump sum appropriation to the 67 school districts based upon a formula in Section 1013.64(1)(a), F.S. Funded projects must be recommended in the Educational Plant Survey. Cost ceilings on new schools apply to these funds.
- (b) **Classrooms for Kids** funds are to fund classrooms required to reduce class sizes as a result of the passage of Amendment 9 to the Florida Constitution.
- (c) **Two-Mill Levy** is determined by using the certified tax roll. Section 1011.71(2), F.S., authorizes districts to levy up to two mills for capital outlay purposes without an election. These funds cannot be used to pay salaries or other operating costs. They may only be used to buy school buses, buy land or to renovate or build schools, and to pay debt service (i.e. Certificates of Participation).
- (d) **BCC Local Option Sales Tax** funds are received from the County derived from the voter approved one-cent sales tax.
- (e) **Educational Facility Impact Fees** are assessed on a countywide basis to cover the costs of public school facilities necessitated by growth and development. School impact fees are charges paid by new residential development i.e. houses, apartments, mobile home and other residential construction that potentially generates public school enrollment. School impact fees are not imposed to cover the full cost of new school capacity but rather to cover an amount equal to the difference between the total cost and the other available sources of revenue appropriated for capital facilities. Impact fees can only be charged for that portion of the cost of public facilities that is attributable to the new development and cannot be used to pay the cost of reducing existing deficiencies. The current school impact fees in Clay County are:
 - Single-Family - \$7,034 per dwelling unit
 - Multi-Family - \$3,236 per dwelling unit
 - Mobile Home - \$5,979 per dwelling unit
- (f) **Certificates of Participation (COPS)** amounts are determined by district administration and reviewed and approved by the Board. Proceeds from the issuance of these certificates can be used to acquire land and finance capital projects.

SECTION 4. 5-YEAR DISTRICT FACILITIES WORK PROGRAM

4.1 5-Year District Facilities Work Program

A component of the Educational Facilities Plan is the financially feasible Work Program for a five-year period. The work program must include:

- A schedule of major repair and renovation projects necessary to maintain the educational facilities and ancillary facilities of the district;
- A schedule of capital outlay projects necessary to ensure the availability of satisfactory student stations for the projected student enrollment;
- The projected cost for each project identified in the work program;
- Revenues anticipated to be available to fund the proposed projects;
- A schedule showing how each project is to be funded; and
- A schedule of options for the generation of additional revenues to fund the work program.

The schedule of capital outlay projects must consider:

- The location, capacities and planned utilization rates of existing facilities;
- The location, capacities and planned use of proposed facilities with emphasis on new facilities to be constructed within the first three years of the work plan;
- Plans for the use and location of relocatable, leased and charter school facilities;
- Alternatives to be used to reduce the need for new permanent student stations;
- The effect of the work plan on class size and utilization rate by grade level;
- The number and percentage of students planned to be educated in relocatables; and
- Plans for the closure of any schools.

INTRODUCTION

The 5-Year District Facilities Work Program is a very important document. The Department of Education, Legislature, Governor's Office, Division of Community Planning (growth management), local governments, and others use the work program information for various needs including funding, planning, and as the authoritative source for school facilities related information.

The district's facilities work program must be a complete, balanced capital outlay plan that is financially feasible. The first year of the work program is the districts capital outlay budget. To determine if the work program is balanced and financially feasible, the "Net Available Revenue" minus the "Funded Projects Costs" should sum to zero for "Remaining Funds".

If the "Remaining Funds" balance is zero, then the plan is both balanced and financially feasible.
 If the "Remaining Funds" balance is negative, then the plan is neither balanced nor feasible.
 If the "Remaining Funds" balance is greater than zero, the plan may be feasible, but it is not balanced.

Summary of revenue/expenditures available for new construction and remodeling projects only.

	2007 - 2008	2008 - 2009	2009 - 2010	2010 - 2011	2011 - 2012	Five Year Total
Total Revenues	\$67,147,393	\$67,918,460	\$36,619,153	\$32,912,236	\$29,327,473	\$233,924,715
Total Project Costs	\$46,152,271	\$60,583,400	\$27,256,000	\$30,438,000	\$27,494,000	\$191,923,671
Difference (Remaining Funds)	\$20,995,122	\$7,335,060	\$9,363,153	\$2,474,236	\$1,833,473	\$42,001,044

Revenue

2 Mill Revenue Source

Schedule of Estimated Capital Outlay Revenue from each currently approved source which is estimated to be available for expenditures on the projects included in the tentative district facilities work program. All amounts are NET after considering carryover balances, interest earned, new COP's, 1011.14 and 1011.15 loans, etc. Districts cannot use 2-Mill funds for salaries except for those explicitly associated with maintenance/repair projects. (1011.71 (5), F.S.)

Item	Fund	2007 - 2008 Actual Value	2008 - 2009 Projected	2009 - 2010 Projected	2010 - 2011 Projected	2011 - 2012 Projected	Total
(1) Non-exempt property assessed valuation		\$10,663,355,682	\$11,516,424,137	\$12,437,738,067	\$13,432,757,113	\$14,507,377,682	\$62,557,652,681
(2) The Millege projected for discretionary capital outlay per s.1011.71		2.00	2.00	2.00	2.00	2.00	
(3) Full value of the 2-Mill discretionary capital outlay per s.1011.71		\$20,260,376	\$21,881,206	\$23,631,702	\$25,522,239	\$27,564,018	\$118,859,541
(4) Value of the portion of the 2-Mills ACTUALLY levied	370	\$20,260,376	\$21,881,206	\$23,631,702	\$25,522,239	\$27,564,018	\$118,859,541
(5) Difference of lines (3) and (4)		\$0	\$0	\$0	\$0	\$0	\$0

PECO Revenue Source

The figure in the row designated "PECO Maintenance" will be subtracted from funds available for new construction because PECO maintenance dollars cannot be used for new construction.

Item	Fund	2007 - 2008 Actual Budget	2008 - 2009 Projected	2009 - 2010 Projected	2010 - 2011 Projected	2011 - 2012 Projected	Total

Fair Share Revenue Source

All legally binding commitments for proportionate fair-share mitigation for impacts on public school facilities must be included in the 5-year district work program.

Nothing reported for this section.

Sales Surtax Referendum

Specific information about any referendum for a 1-cent or ½-cent surtax referendum during the previous year.

Did the school district hold a surtax referendum during the past fiscal year (2006 - 2007) ? No

Additional Revenue Source

Any additional revenue sources

The COFTE Projected Total (38,341) for 2011 - 2012 must match the Official Forecasted COFTE Total (43,122) for 2011 - 2012 before this section can be completed. In the event that the COFTE Projected Total does not match the Official forecasted COFTE, then the Balanced Projected COFTE Table should be used to balance COFTE.

Projected COFTE for 2011 - 2012	
Elementary (PK-3)	13,206
High (9-12)	12,223
Middle (4-8)	17,693
	43,122

Grade Level Type	Balanced Projected COFTE for 2011 - 2012
Elementary (PK-3)	1,593
Middle (4-8)	1,594
High (9-12)	1,594
	43,122

Relocatable Replacement

Number of relocatable classrooms clearly identified and scheduled for replacement in the school board adopted financially feasible 5-year district work program.

Location	2007 - 2008	2008 - 2009	2009 - 2010	2010 - 2011	2011 - 2012	Year 5 Total
Total Relocatable Replacements:	0	0	0	0	0	0

Charter Schools Tracking

Information regarding the use of charter schools.

Nothing reported for this section.

Special Purpose Classrooms Tracking

The number of classrooms that will be used for certain special purposes in the current year, by facility and type of classroom, that the district will, 1), not use for educational purposes, and 2), the co-teaching classrooms that are not open plan classrooms and will be used for educational purposes.

Infrastructure Tracking

Necessary offsite infrastructure requirements resulting from expansions or new schools. This section should include infrastructure information related to capacity project schedules and other project schedules (Section 4).

Water and sewer service for Elementary School "X."

Proposed location of planned facilities, whether those locations are consistent with the comprehensive plans of all affected local governments, and recommendations for infrastructure and other improvements to land adjacent to existing facilities. Provisions of 1013.33(12), (13) and (14) and 1013.36 must be addressed for new facilities planned within the 1st three years of the plan (Section 5).

Elementary Schools W, Z, Y and High School QQQ - OakLeaf Area, Elementary School X - Lake Asbury Area, District Facilities - Middleburg Area

Consistent with Comp Plan? Yes

Net New Classrooms

The number of classrooms, by grade level and type of construction, that were added during the last fiscal year.

List the net new classrooms added in the 2006-07 fiscal year.					List the net new classrooms to be added in the 2007-08 fiscal year.			
"Classrooms" is defined as capacity carrying classrooms that are added to increase capacity to enable the district to meet the Class Size Amendment.					Totals for fiscal year 2007-08 should match totals in Section 15A.

Leased Facilities Tracking

Existing leased facilities and plans for the acquisition of leased facilities, including the number of classrooms and student stations, as reported in the educational plant survey, that are planned in that location at the end of the five year workplan.

Nothing reported for this section.

Failed Standard Relocatable Tracking

Relocatable units currently reported by school, from FISH, and the number of relocatable units identified as 'Failed Standards'.

Nothing reported for this section.

Planning

Class Size Reduction Planning

Plans approved by the school board that reduce the need for permanent student stations such as acceptable school capacity levels, redistricting, busing, year-round schools, charter schools, magnet schools, public-private partnerships, multitrack scheduling, grade level organization, block scheduling, or other alternatives.

The Clay County School District has considered redistricting, busing, year-round schools, charter schools, magnet schools, public-private partnerships, multitrack scheduling, grade level reorganization and block scheduling as alternatives to new classroom construction. None are supported as viable means to meet the growth and capacity issues of the district.

School Closure Planning

Plans for the closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues.

None

Long Range Planning

Ten-Year Maintenance

District projects and locations regarding the projected need for major renovation, repair, and maintenance projects within the district in years 6-10 beyond the projects plans detailed in the five years covered by the work plan.

Project	2011 - 2012 / 2016 - 2017 Projected Cost
ELECTRICAL REPAIR/REPLACEMENT	\$1,245,724
ROOFING	\$4,765,932
CONCRETE REPLACEMENT	\$538,000
FIRE ALARM	\$1,470,701
HVAC REPLACEMENT	\$5,220,075
ELEVATOR MAINTENANCE	\$65,500
COVERED WALKWAY REPLACEMENT	\$890,000
RENOVATION	\$3,015,714
WASTE WATER CONTRACT	\$506,301
CARPET	\$3,000,000
PAINTING	\$2,310,803
STORM DRAINAGE	\$65,642
	\$23,094,392

Ten-Year Capacity

Schedule of capital outlay projects projected to ensure the availability of satisfactory student stations for the projected student enrollment in K-12 programs for the future 5 years beyond the 5-year district facilities work program.

Project	Location, Community, Quadrant or other general location	2011 - 2012 / 2016 - 2017 Projected Cost
HIGH SCHOOL "RRR"	LAKE ASBURY AREA	\$55,000,000
ELEMENTARY "A"	BLACK CREEK DRI	\$25,000,000
ELEMENTARY "B"	SARATOGA SPRINGS DRI	\$25,000,000
