Audio Enhancement Solutions Proposal

April 19, 2023

Proposal ID# 106763
SAP Quote# 43637

Prepared For School District of Clay County
Mike Kemp

Dear School District of Clay County,

I want to personally thank you for inviting us to submit a proposal to School District of Clay County!

When my mother, Claudia Anderson, founded Audio Enhancement over 40 years ago, we never imagined the impact our services would have on education today. Through customer feedback, we have grown from offering classroom audio solutions to providing district-wide communication and safety technology. We have impacted over 4,000 districts, 39,000 schools, and over 1,200,000 classrooms across the world. We are excited for the opportunity to help you!

Our team focuses on hiring employees with a passion to make a difference in education. We look forward to developing a deeper partnership with School District of Clay County through building friendship and trust during the ongoing stages of your project.

It is our pleasure to submit this proposal to School District of Clay County. As with all proposals, revisions can be made at any time.

We look forward to your response and are available to answer any questions during the review process.

From all of us here at Audio Enhancement, thank you!

Sincerely yours,

Jeff Anderson

Jeff Anderson
Audio Enhancement, CEO

Making a Difference in Education

For more than forty years, Audio Enhancement has served the schools throughout the United States, providing both classroom audio enhancement systems as well as integration services for classroom technology. Audio Enhancement is headquartered in Salt Lake City Utah and has facilities in Georgia and Florida.

Audio Enhancement was founded in 1978 by Claudia Anderson around the simple idea that “learning begins with hearing.” Having two hearing impaired children; the first Audio Enhancement systems were designed specifically for the hearing impaired. Early in our history, technological advancements made it possible to also provide whole classroom sound systems, benefiting all students. Audio Enhancement has been the innovator and leader in this field.

By 2004, it was clear that classroom audio enhancement systems were a key part of the overall technology landscape in the classroom. Based on our high level of support, outstanding customer service, and training that was provided for the audio systems, several school districts came to us and requested that we expand our product offerings. Based on these requests, we undertook an initiative to increase our capabilities in order to provide a complete integrated technology package for the classroom. These offerings include display devices, control, video/audio playback devices and interactive technologies. By utilizing the principles developed over thirty years of providing classroom audio systems to the schools, we were able to provide both technical integration, teacher in-servicing, training, and professional development to help the schools ensure the success of their technology goals.

Moving the company forward, in 2008, Audio Enhancement was incorporated: Jeff Anderson, President and CEO, Jennifer Crum, CFO, Jeremy Anderson, CAO and Justin Anderson, COO. Today, the Audio Enhancement product line improves student achievement, decreases teacher vocal fatigue and absenteeism, and creates positive student behavior. Audio Enhancement systems also increase focus and attention and supports classroom management.

The Anderson Family

Classroom Audio

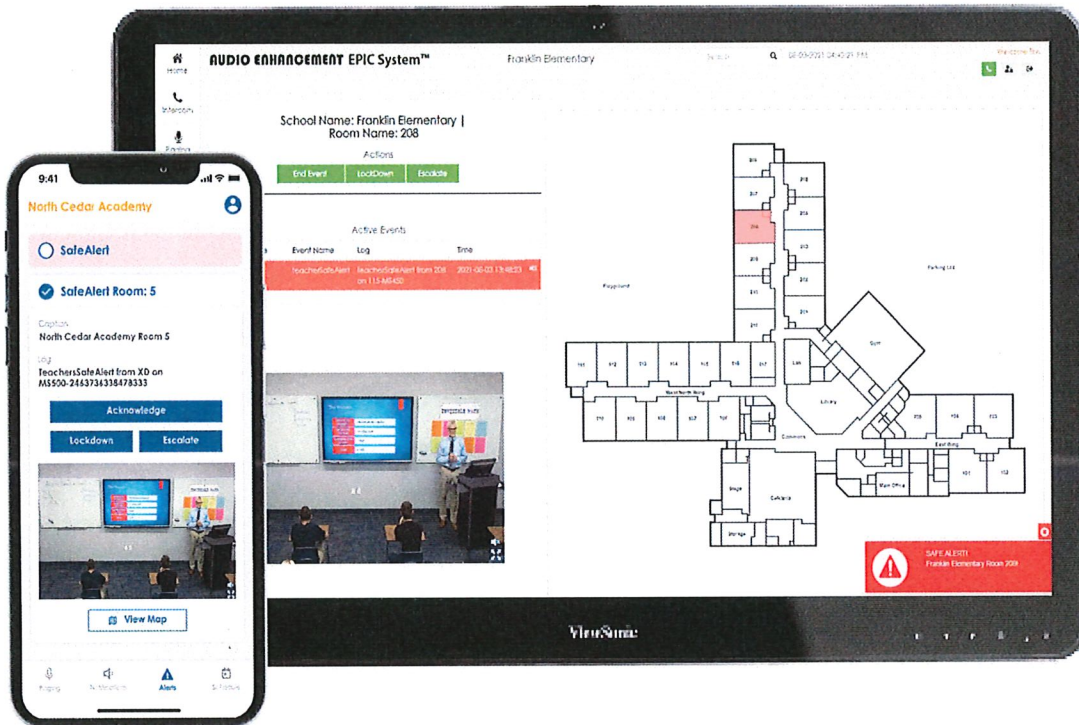

A classroom Audio Enhancement system provides teachers with benefits seen in documented sound field system research with the consistency and clarity of the newest classroom technology—XD Audio. Teachers wear an XD Microphone with confidence of zero signal drop-outs. This delivers their voices to each student as clearly as if the teacher were sitting right next to them. With Classroom Audio, you can expect more time on task, fewer behavior issues, less teacher verbal repetition, and better content understanding. These provide an increase in actual instructional time, one thing every teacher can use more of. Clear and equitably distributed audio in the classroom contributes to the overall quality of instruction, targeting gaps in learning.

EPIC System

EPIC System

EPIC System allows schools to effectively and efficiently manage and schedule student movement within the school. By customizing bells and announcements on an individual classroom level, schools can eliminate unnecessary distractions to the learning environment, maximizing allocated learning time. EPIC system can be controlled from the Kiosk or the EPIC mobile app. Optional InfoView expands your EPIC System to include customizable classroom clocks, visual emergency notifications, and digital signage around your campus.

SAFE System

SAFE System™ (Signal Alert For Education) System™ is an alert and notification solution that connects teachers and classrooms to first responders for quick response and communication. The integration of SAFE System with our teacher microphone gives teachers a personal duress button to send alerts instantly from anywhere in the school. Office staff can discreetly acknowledge the alert, letting teachers know that help is on the way. The web-based interface gives administrators the ability to provide direction and maintain situational awareness of the entire campus, even in the most challenging emergency conditions. Give everyone on your campus peace of mind with the reassurance that SAFE is ready when seconds count.

Selected Systems and Products

Optimum System

QTY - 125

COMPATIBILITY

The MS-600 is a fully integrated networked classroom amplifier and wireless microphone receiver, and a central component in the Optimum Classroom System. This amplifier has network-based intercom, paging and emergency notification, providing full-duplex audio. It is easy-to-use, easy-to-install, and has a simple user interface software. The entire unit is Powered over Ethernet (PoE). Intercom and paging functionalities are built-in.

INCLUDED COMPONENTS

XD Teacher Box with Teacher Pendant Microphone

Optimum MS-600 Amplifier with Integrated XD Receiver with Programming (Requires PoE+)

Wiring Bundle for Optimum Amplifier with Integrated XD Receiver

Classroom Speaker, Ceiling 1x2, Set of 4

Interactive Touch Controller Bundle with Programming

Wall Plate, WPA-701, Ambient Mic with Decora Plate

Full System Product Details

XD Teacher Box with Teacher Pendant Microphone, Optimum MS-600 Amplifier with Integrated XD Receiver with Programming (Requires PoE+), Wiring Bundle for Optimum Amplifier with Integrated XD Receiver, Classroom Speaker, Ceiling 1x2, Set of 4, Interactive Touch Controller Bundle with Programming, Wall Plate, WPA-701, Ambient Mic with Decora Plate,

Hallway Visual Messaging Display

QTY - 14

COMPATIBILITY

The EPIC System InfoView Display is a display device specifically designed for the K-12 campus. With a PoE powered 22" Full HD display. This high-performance, energy-efficient, world-class Digital Signage Systems deliver power and data over a single Ethernet cable, offering greatly increased flexibility with location and positioning

INCLUDED COMPONENTS

Double - Wall Mounted Display Bundle (Requires PoE+)

Full System Product Details

Double - Wall Mounted Display Bundle (Requires PoE+),

MS-375 Network Interface

QTY - 23

COMPATIBILITY

The MS-375 is a network interface used to expand the range of the XD microphones non-paired SAFE Alert process. The entire unit is Powered over Ethernet (PoE). The unit can be placed in areas of the campus that are not densely covered by other classroom systems. (i.e. in the physical fitness area of a large Middle School or High School). The non-paired alert process allows any Audio Enhancement XD Teacher Microphone to activate a SAFE Alert from anywhere on the campus, even if they are out of ra

INCLUDED COMPONENTS

Network Interface SAFE Alert Extender and 2-Way Intercom with Programming (Requires PoE+)

Full System Product Details

Network Interface SAFE Alert Extender and 2-Way Intercom with Programming (Requires PoE+).

EPIC Head End System

QTY - 01

COMPATIBILITY

Everything you need in order for an EPIC System central head-end.

INCLUDED COMPONENTS

Grandstream GXP2130 Enterprise Phone including Programming

EPIC Kiosk with Programming

EPIC Server with Programming

CLAUDIA - EPIC Front Office Media Player with Programming (Requires AC Power)

EPIC System Platform License

SAFE System License (Requires EP-0009)
