While assigned to Orange Park High School Ann Miller, Principal at Dr's Inlet Elementary School contacted me. Ann said that an unknown person(s) had broken into portable number 896 and removed a Dell computer.

I responded to Dr's Inlet and met with Ann and custodian Don Johnson. Don said he was the first to find the portable had been broken into when he had to unlock the door for a substitute teacher. Don said it looked as if someone had tried or did, kick the lock open on the front door. Don also said they kicked the lock on the boys bathroom (rm# 919) but did no damage inside the bathroom.

Don told me he noticed that the computer that normally sits beside the teacher was missing. Don then called for Ann to come and see. Don, Ann and the substitute teacher all went in and out of the door using the handle before I could dust for latent prints. I photographed the door and room.

I also observed what appeared to be fresh pry marks on the door in the lock and striker plate area. I also photographed this area. Don said there were footprints on the floor but he, Ann and the substitute had walked over them.

This case is pending.
