

Session 5: Mathematical Practices: Overarching Habits of Mind

The Standards for Mathematical Practice embody the mathematical thinking and the habits of mind needed for solving real world problems. In this session, teachers develop implementation strategies for incorporating the math practices with the content standards. Participants will engage in math tasks that foster student development of these practices and consider ways to apply them in their classroom.

Professional Learning Sessions - Secondary Teachers**Session 1: Explore the Core: Integrating Discovery Education Streaming Plus into your Instruction**

Explore Discovery Education's extensive library of rich and engaging media and learn how Discovery Education Streaming Plus can help transform instruction in elective classes. Participants learn how Discovery Education Streaming Plus supports multiple learning modalities with content that is aligned to standards and easy to integrate. A Discovery Education Specialist demonstrates site navigation throughout this training while providing integration ideas and discussing instructional strategies.

Session 2: Explore the Core: Integrating Discovery Education Streaming Plus into your Math Instruction

Explore Discovery Education's extensive library of rich and engaging media and learn how Discovery Education Streaming Plus can help transform math instruction. Participants learn how Discovery Education Streaming Plus supports multiple learning modalities with math content that is easy to integrate and aligned to standards. A Discovery Education Specialist demonstrates site navigation throughout this training while providing integration ideas and discussing instructional strategies.

Session 3: Explore the Core: Integrating Discovery Education Streaming Plus into your Science Instruction

Explore Discovery Education's extensive library of rich and engaging media and learn how Discovery Education Streaming Plus can help transform science instruction. Participants learn how Discovery Education Streaming Plus supports multiple learning modalities with science content that is easy to integrate and aligned to standards. A Discovery Education Specialist demonstrates site navigation throughout this training while providing integration ideas and discussing instructional strategies.

Session 4: Explore the Core: Integrating Discovery Education Streaming Plus into your ELA Instruction

Explore Discovery Education's extensive library of rich and engaging media and learn how Discovery Education Streaming Plus can help transform literacy instruction. Participants learn how Discovery Education Streaming Plus supports multiple learning modalities with content that is easy to integrate and aligned to standards. A Discovery Education Specialist demonstrates site navigation throughout this training while providing integration ideas and discussing instructional strategies.
