4.06 STUDENT ASSIGNMENT

A. STUDENTS

Students will be assigned to appropriate schools on the basis of attendance zones recommended by the Superintendent and established by the Clay County School Board. The recommendations of the Superintendent will be approved by the Clay County School Board for advertisement, in accordance with Florida Statutes 1002.31. In addition, the Superintendent will make a reasonable effort to notify parents/guardians whose children will be affected by the proposed change in zoning. Copies of the proposed zoning changes will be sent to each affected school's PFA president or School Advisory Council.

New students coming into the public schools during the school year will be assigned to the school located in the attendance zone in which the student resides.

When a parent/guardian desires his child to attend a school other than the one to which he has been assigned, the parent/guardian must direct a written request to the Superintendent via the Special Pupil Request form, specifying the school assignment desired and stating reasons for the request. While the application is pending, the child must remain in attendance in the school of the original assignment. If the application is approved, the child may be authorized to ride the bus to the new school, but on a "space available" basis only. The child's status on the bus shall be the same as any other "courtesy rider" as defined in Board Policy 6.84, paragraph G.6.c. (Amended: 03/25/93) Note: All high schools are not accepting students outside of that school's zone with the exception of students accepted into Academies and IB or Cambridge programs.

~~The term "homeless children and youths" means individuals who lack a fixed, regular, and adequate nighttime residence; and includes children and youths who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; are abandoned in hospitals; or are awaiting foster care placement; children and youths who have a primary nighttime residence that is a public or private place not designed for, or ordinarily used as a regular sleeping accommodation for human beings; children and youths who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and migratory children (as such is defined in section 1309 of the Elementary and Secondary Education Act of 1965) who qualify as homeless for the purposes of this subtitle because the children are living in circumstances described above.~~

~~Children and youth experiencing homelessness are ensured educational rights and protections by the McKinney-Vento Homeless Assistance Act.~~

~~According to the child/youth's best interest, schools must either continue the child/youth's education in the school of origin, or enroll the child/youth in any public school that non-homeless students who live in the attendance area where the child/youth is actually living are eligible to attend. A homeless child or youth's right to attend his/her~~

school of origin extends for the duration of homelessness. If a child or youth becomes permanently housed during the academic year, he or she is entitled to stay in the school of origin for the remainder of the academic year. The school selected shall immediately enroll the child/youth in school, even if the child or youth lacks records normally required for enrollment, such as previous academic records, medical records, proof of residency, or other documentation.

Any known homeless student should be referred to a school social worker to assess need for school placement and available community services.
