

LIVE Online (webinar) training has many benefits including fast scheduling, flexibility and convenience. Plus, learning from the comfort of your own office or home means no hotel bills, no fuel costs, no time away from home and family. After just a few hours with one of our professional Training Instructors, you will be ready to start making use of your new Tajima DG/ML By Pulse software system.

We also realize certain aspects such as hooping, machine setup, and embroidery production need a hands-on approach, which is done in one of our state-of-the-art Training Facilities. Here you will spend several days working with a professional Training Instructor to learn the art of embroidery so you can return home confident and ready to make money with your new embroidery business.

Phase 1 - Embroidery Essentials Webinar

Your first step is to participate in a two day web-based Embroidery Essentials Webinar, that is experienced from the comfort of your own office or home. Here you will learn the fundamentals of embroidery as well as the key components of the Tajima DG/ML by Pulse embroidery design program.

Cable Modem, DSL or other high speed internet is all you need to participate. No internet, No Problem! Did you know that you can access free high speed internet at virtually every library throughout the United States.

Simply click to register for the date that best fits your schedule. A confirmation with all of the details will be sent to you.

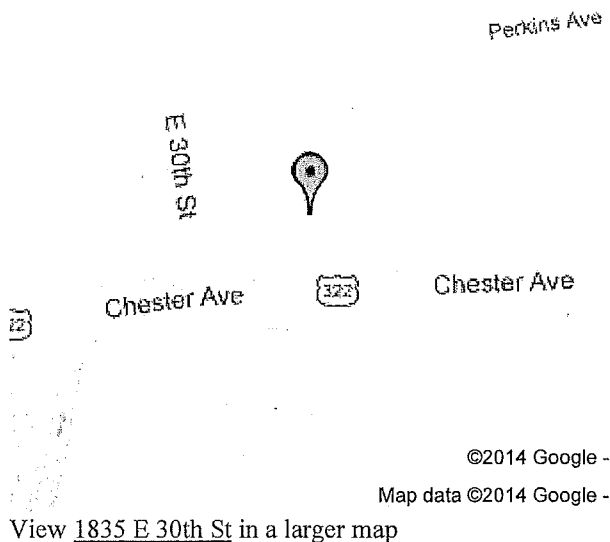

TAJIMA DG/ML BY PULSE **Embroidery Essentials Webinar - 2 Day Session**
For Hirsch customers who've recently purchased the Tajima DG/ML By Pulse Software system and a new machine.

Phase 2 - Hands-on Classroom Training

After completing the webinar training, we will schedule you to come into our state-of-the-art ~~Cleveland, OH~~ training center for hands-on classroom training where you will put to use all the great software techniques you learned in the pre-training webinar by applying them to real world decorating challenges. You will leave our training center with confidence, experience and proficiency in the art of producing high-quality embroidery.

Huntersville, NC
