

## CELT (Center for Educational Leadership and Technology)

The district is negotiating a contract with Focus for a new student information system (SIS). The Center for Educational Leadership and Technology (CELT) proposes to assist the district data improvement team by assessing current status and ensuring there is a detailed plan, total cost of ownership model, and budget to implement the SIS throughout the district. The contract can include all or part of the following services:

- SIS Contract Assistance
- SIS Requirements Review
- Data Governance and Management.
