

TECH PREP DUAL ENROLLMENT AGREEMENT

Engineering/Architecture and Interior Design Technology

**Florida Community College's
Programs of Study**

***Associate in Science or Associate in Applied Science Degree
Interior Design Technology (2289)***

Dual Enrollment Courses

(Prerequisite: students must successfully complete the district course, 8506405 Design Services Core, prior to enrolling in the dual enrollment courses listed below.)

IND 1020 (3 credits)
Principles of Interior Design

IND 1100 (3 credits)
History of Interiors I

Total college credits possible: 6

NOTE:

Students must be 11th or 12th graders to enroll in the dual enrollment classes.

Florida Community College will accept credits from courses students take at St. Johns River Community College that are part of the College's Interior Design program as long as the courses follow Florida Community College's common course numbering system.
