

TECH PREP ARTICULATION AGREEMENT
Between
Lake City Community College
And
Clay County School Board

Articulation Agreement Programs Of Study

In a continuing effort to provide career opportunities for secondary school students in Tech Prep programs to progress into Lake City Community College (LCCC), the Clay County School Board and LCCC Board of Trustees agree to extend college credit for courses listed at LCCC according to the following requirements.

Mechanisms and Strategies for the Development and Promotion of Tech Prep (Technical Preparation) Programs

A. Courses and Programs Offered Under This Agreement

1. Courses to be provided by Lake City Community College under this agreement will be mutually agreed upon by LCCC and Clay County School Board and will avoid unnecessary duplication of existing courses in grades 9-12. Courses and Program offerings will include those listed in Appendix A. Alterations to this list of offerings may be made with mutual consent of LCCC and the County School Board.
2. A Student education plan will be developed by Clay County Tech Prep representative in collaboration with the LCCC Tech Prep Coordinator for each student applying for Tech Prep credit. In order to develop said plan, the student will present to the high school representative a document of Tech Prep application, which will be continually evaluated for purposes of determining college credits to be applied toward an Associate in Science degree. Said Associate in Applied Science degree will be the student's stated education objective.
3. Special consideration for Tech Prep students in limited enrollment programs will be identified in Appendix A.

B. Process For Notifying Students And Parents About Opportunities To Participate In Tech Prep Programs

1. LCCC will provide information to the high schools regarding requirements for participation in, and the educational benefits to be derived from, Tech Prep programs.
